MALONEY'S *Nursery Book*

For Farm, Village and Suburban Homes

MALONEY BROS. NURSERY CO.
DANVILLE, N. Y.

Evergreens are very popular and effective for foundation planting. See pages 17-18.

Here is a Book of Delights—Enjoy It!

THOUGH this book came to you free, it offers you opportunity for more pleasurable, soul-satisfying hours than you received from many a volume for which you paid \$2.00 or \$3.00. Make yourself comfortable in an easy chair and prepare for an evening of real enjoyment.

Now—use your imagination a little bit. Try to see these glorious roses, not as they are pictured in the book, but as they are going to look when they are blooming for you in your own garden, filling the air with their delightful perfume. So with the other splendid colorful blossoms shown in the pages that follow—see them blooming gloriously where you can enjoy them every moment of the day.

When you come to the grapes, don't see merely a pretty picture—see yourself holding a heavy bunch, weighing two or three pounds, each grape-skin filled to bursting with sweet juice. See yourself with a basket over your arm during the twilight of the Indian Summer evenings, picking your own apples, and peaches, and pears, and plums to serve to the company that you expect a few hours later.

It was to serve thousands of people just like yourself that the Maloney Nurseries were started 45 years ago. Practically all the work on your plants has been done before we ship them to you. We select, with painstaking judgment, the proper seeds for sturdy growth. We nurse the seedlings in ideal soil and climatic conditions until each plant is throbbing to spread its beauties to the world. Then we dig them with a deep-going steam-digger (thus getting long, unbruised roots). We pack these for you so that they will arrive robust and vigorous after their journey. We pay the transportation. We guarantee that every plant will bear exactly the kind of blossom or fruit that its tag promises.

All that is left for you to do is to follow the simple planting directions that we send you. A little water, a little sunshine, a little patience, and your garden is a beauty spot, to be a pleasure and a joy from that time on through the years that are to follow.

May we add one word of advice? Long ago we learned that the worst disappointment that can come to any home-owner is to look with eager expectation for the time when his plants will bloom—only to find, to his dismay, that they came up weak, straggly, delicate. For that reason, the Maloney Nurseries specialize in only the finest stock that can be grown. No other is shipped to our customers. We tell you frankly that in some cases you are likely to find Maloney prices a few cents higher than is asked by other houses, for plants of the same name. But you can rest assured that our thousands of customers would not come back to us year after year unless they had found that for a few extra pennies which they paid to Maloney they got the most superb and glorious stock that can be grown; making the other kinds really expensive in comparison. If you want to save a trifle on the first cost and don't care how the plants will look when they come up, you probably don't want to buy from Maloney. But if you are planting with a view to permanent and enviable beauty for the years to come, you will thank the day that you discovered one house that ships only the finest stock that Nature can yield.

YELLOW RAMBLER

Nature's Charm Around the Home

HAVE you ever seen the color sketches made by high-priced artists for elaborate homes that are to cost \$100,000 to \$200,000? Always you find that care is given to include flowering plants and shrubs and hedges. So necessary are flowers in turning a house into a home that these residences sometimes have conservatories costing \$25,000 or more to supply blossoms the year around. But the actual cost of the plants themselves for any home at all is usually quite small.

You are going to live in your home for years. What a pleasure to return to your home, day after day, and be greeted by the stirring perfume of roses, the flashing crimson of the barberry—to find as the summer rolls by that the color scheme of the front yard turns from blue to yellow, then to pink, then to red, and finally winds up the season in a glorious riot of many colors!

What a satisfaction to watch the people, who pass by, stopping to admire the home that you have built for yourself—calling the attention of each other to beauties of your grounds!

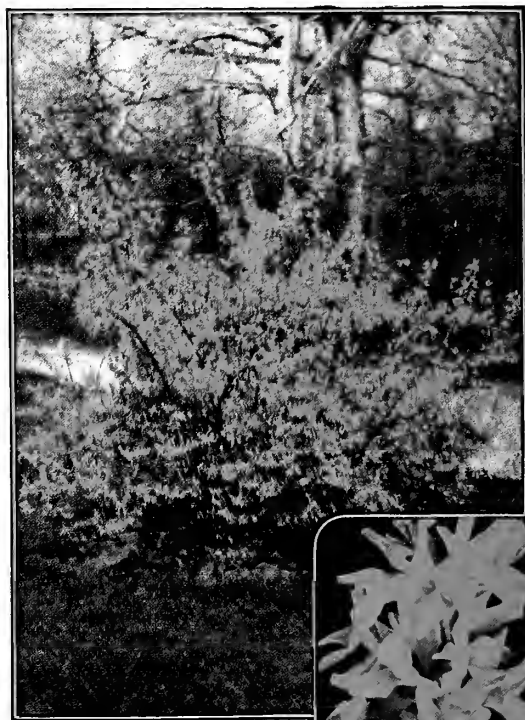

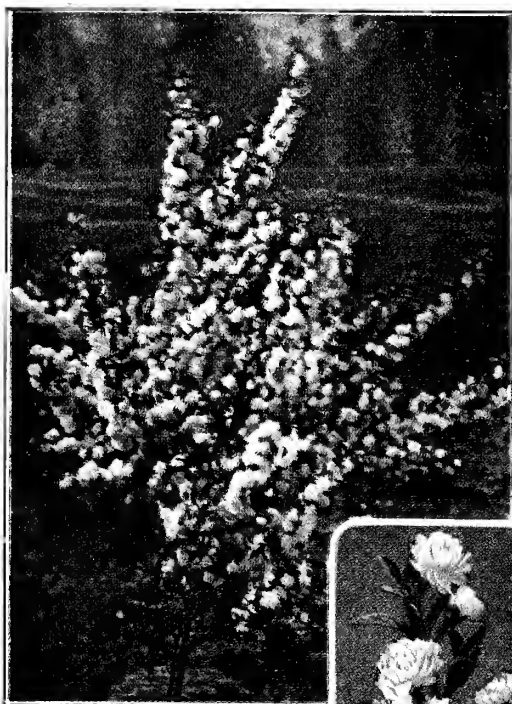

[What a difference a few shrubs make. Two pictures of the same house—one bare, unfinished, uninviting—the other a picture of tasteful planting that reflects an enjoyable homelife within.]

JUST as it is easy to sell a used car if it has a new coat of paint, so you will find, if you ever wish to sell your home, that you will find more buyers and get a bigger price just because you have had artistic taste and the foresight to drape Nature's charm around your home—in the shape of flowers and shrubs.

*When golden summer sunshine
Brings leaf and flower to view,
When the early morning breezes
Waft fragrance fresh with dew,
Then your home becomes a castle;
For your planning and your care
Have peopled its wee kingdom
With things you planted there.*

FLOWERING SHRUBS

Price of all 2 year, No. 1 Hardy Shrubs, 2½ to 3½ feet, (except named Lilacs), 45c each; 10 for \$4.25.

All varieties* can also be had in 3½ to 4½ feet, 80c each; 10 for \$7.50.

2½ to 3½ foot shrubs can be sent by parcel post, postpaid, for 5c each extra.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st. 5 per cent discount on or before April 15th. 3 per cent discount after April 15th.

Shrubs for Shady Places—Barberry, Dogwood, Hydrangea Arborescens, Forsythias, Honeysuckle, Snowberries, Snowball, Deutzia Pride of Rochester, Spiraea Van Houttei, Spiraea Billardi, Stephanandra.

Shrubs for Foundation Plantings, and How to Plant Them as to Size:

Dwarf Growing—Barberry, Deutzia Gracilis, Deutzia Lemoinei, Kerria Japonica, Spiraea Anthony Waterer, Spiraea Thunbergi.

Medium to Tall Growing Varieties—Almond, Althea, Butterfly Bush, Calycanthus, Coralberry; Deutzias: Crenata, Pride of Rochester; Golden Elder, Hydrangea A. G., Mock Orange, Japan Quince; Pearl Bush; Purple Fringe; Spiraeas: Prunifolia, Billardi, Callosa Rosea, Douglassi, Van Houttei; Syringas: Common, Golden; Sweet Pepper Bush; Tamarix; Weigelas: Candida, Eva Rathke, Floribunda, Rosea.

Tall Growing Varieties for Corners and Borders—Dogwood, High Bush Cranberry, Honeysuckle, Snowball, Lilacs.

ALMOND, FLOWERING (Amygdalus)—Covered in May with rose-colored blossoms resembling small roses. 4 feet.

ALTHEA (Hibiscus Syriacus)—Blooms freely in August and September. Vigorous grower. Also called Rose of Sharon. Double purple, red, pink and white. Grows 6-8 feet.

BARBERRY—New Red Leaved. See page 12.

BARBERRY THUNBERGI (Berberis Thunbergi)—A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. Red berries remaining during winter. Grows 3 feet.

BEAUTY BUSH—See page 12.

BUTTERFLY BUSH (Buddleia)—Attracts butterflies in large numbers. Produces long, graceful stems which terminate in tapering panicles of beautiful lilac-covered flowers. Blossoms from early summer till frost. Grows 3-4 feet.

CALYCANTHUS—Foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor. August. Grows 5 feet.

CORALBERRY, SYMPHORICARPOS VULGARIS* (Indian Currant)—Vigorous, quick growing shrub similar to snowberry, except fruit is red. Rose colored flowers in June and July. Grows 4-5 feet.

DEUTZIA, CRENATA (Double Flowering)*—In May is fairly covered with very showy double white flowers, edge slightly tinged with rose. 5-6 feet.

DEUTZIA, GRACILIS—Pure white flowers in June. Grows 2 feet.

DEUTZIA, LEMOINEI—Flowers are large, pure white and produce freely. May. Grows 3 feet.

DEUTZIA, PRIDE OF ROCHESTER*—Blooms in May. Double, white. Grows 5-6 feet.

DOGWOOD (Red)—Very conspicuous in winter when branches turn to blood red. Grows 6-8 feet.

DOGWOOD, WHITE (Cornus Alba)—Large white flowers in spring before the leaves appear. Stem and branches turn to blood red in winter. Grows 6-8 feet.

DOGWOOD, YELLOW (Cornus Lutea)—A striking yellow branched form. Very satisfactory for contrast. Grows 6-8 feet.

FORSYTHIA FORTUNEI* (Golden Bells)—Deep yellow flowers in great profusion in April. Grows 6-8 feet.

FORSYTHIA INTERMEDIA—Earliest blooming; long, drooping canes of yellow flowers. April. 6-8 feet.

FRINGE, PURPLE (Smoke Tree, Rhus Cotinus)—A conspicuous spreading shrub; overhung in mid-summer by mist-like clouds of tiny flowers. These billowing panicles are a light lavender when fresh, very persistent, and give the impression of smoke at a distance. July and August. Grows 6-8 feet.

GOLDEN-LEAVED ELDER (Sambucus Nigra Aurea)—The best of all the colored shrubs, the foliage being as yellow as gold. Grows 5-6 feet.

HIGH BUSH CRANBERRY—An upright and spreading shrub. Produces flat heads of white flowers 3 to 4 inches across in May and June, followed by scarlet fruits which remain until the following spring. Grows 6 to 8 feet high.

HONEYSUCKLE MORROWI—A spreading variety growing 4-6 feet, with creamy white flowers in early spring, followed by pretty red berries.

HONEYSUCKLE, PINK* (Grandiflora Rosea)—Bright pink flowers. Covered in summer and autumn with orange berries. May. Grows 8-10 feet.

HONEYSUCKLE, RED (Tatarica rubra)—Light red flowers. Covered in summer and autumn with scarlet berries. May. Grows 8-10 feet.

SHRUBS—Continued

HONEYSUCKLE, WHITE (*Tatarica alba*)—White flowers and plentiful red berries. May. Grows 8-10 feet.

HYDRANGEA, ARBORESCENS GRANDIFLORA ALBA (Hills of Snow)—The very finest addition to this class of plants. The blooms are of the very largest size, of pure snow-white color in July and August. 4-5 feet at maturity.

HYDRANGEA P. G. (Tree Form)—When in full bloom are very attractive. 3-4 feet. \$1.00 each.

HYDRANGEA PANICULATA GRANDIFLORA*—Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink, and are borne in large pyramidal trusses a foot long and six to eight inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. 6-7 feet at maturity.

KERRIA JAPONICA—A medium dwarf shrub with beautiful globe-shaped flowers of bright orange. July. Grows 3-4 feet high.

LILAC, PURPLE* (*Syringa Vulgaris*)—An old favorite; purple flowers. May. 6-8 feet.

LILAC, WHITE (*Syringa Vulgaris alba*)—Well-known favorite. May. 6-8 feet.

Lilac—Double Flowering

BELLE DE NANCY—Very large panicles of double flowers, brilliant satiny rose, white center. \$1.00 each.

CHAS. JOLY—Superb dark variety. Deep reddish purple flowers; large and double. \$1.00 each.

MME. LEMOINE—Superb clusters of pure white, double flowers. A grand variety. \$1.00 each.

PRESIDENT GREVY—Blue. Flowers largest of all, double. Blossoms profusely. \$1.00 each.

Philadelphus

(Mock Orange or Syringa)

CORONARIS flore-pleno (*Garland Syringa*)—Flowers pure white; highly scented. Double. Grows 6-8 feet.

FOLIS AUREUS (*Golden Syringa*) — Yellow foliage, white flowers. Very sweet scented. Grows 3-5 feet.

LEMOINEI—Small white flowers. May. Grows 6-8 feet.

NIVALIS*—Free flowering. White. Largest bloom of the single Philadelphus. May and June. Grows 5-6 feet.

VIRGINAL—Very large, double white flowers in clusters of five to seven; blooms in June. 5-7 feet.

PEARL BUSH — Buds like pearls strung on slender threads and open up to fragrant clusters of pure white, starry flowers. Grows 6 to 10 feet high.

QUINCE, JAPAN (*Cydonia Japonica*)—Dark green foliage, and showy, deep scarlet flowers. May. Grows 5-6 feet.

SNOWBALL, COMMON (*Viburnum Opulus Sterile*) — Makes a large bush. Bears balls of pure white flowers in June. Grows 8-10 feet.

SNOWBALL, JAPAN (*Viburnum Tomentosum*)—A solid mass of white in June. Grows 6-7 feet.

SNOWBERRY* (*Symphoricarpos Racemosus*)—Very ornamental, hardy shrub. Small, pink flowers followed by large, waxy white berries, which remain during winter. June and July. Grows 4-5 feet.

SPIRAEA ANTHONY WATERER—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in profusion all summer. Grows 3 feet.

SPIRAEA BILLARDI*—During July every branch and twig is tipped with a spike of beautiful blood-red flowers 4 to 6 inches in length. 4-5 feet at maturity.

SPIRAEA CALLOSA ROSEA—Has large panicles of deep rose-colored flowers. Blossoms nearly all summer. Grows 4-6 feet.

DANVILLE, N. Y.

SPIRAEA, DOUGLASI*—Has spikes of deep rose-colored flowers in July and August. Grows 4-6 feet.

SPIRAEA THUNBERGI—Feathery foliage, which is a peculiar but pleasing shade of yellowish green, changes in autumn to bright red and orange. Grows 3-5 feet.

SPIRAEA VAN HOUTTEI*—The best spiraea. White blossoms in May and June. Grows 5-7 feet.

STEPHANANDRA FLEXUOSA—Branches angular, even zigzagged, with handsome deep lobed foliage which colors to purplish red; and paniced racemes of white flowers in June. Grows 3-4 feet.

SWEET PEPPER BUSH (*Clethra Alnifolia*)—Very hardy; blooms every season without fail; cold never harms it; flowers pure white, in spikes three to six inches long. A bed of Clethras will perfume the air for a long distance around. Grows 4-5 feet.

TAMARIX, AFRICANA—The pink flowers, filmy foliage and gracefulness make them one of the most desirable shrubs for background or interplanting. Will grow in poor, dry soil where other shrubs fail. Blossoms early. Grows 4-5 feet.

WEIGELA, CANDIDA (*Diervilla Candida*)—The flowers are of the purest white, blooming in June, and all summer. Grows 5-7 feet.

WEIGELA, EVA RATHKE (*Diervilla Eva Rathke*)—Showy, bright red flowers borne freely during the summer. Grows 5-7 feet.

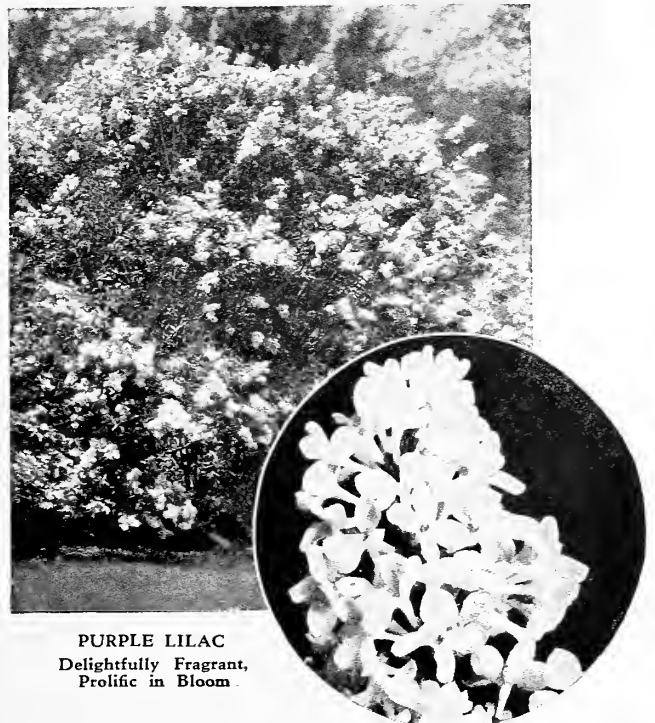

WEIGELA, FLORIBUNDA (*Diervilla Floribunda*)—Flowers dark crimson, with white stamens somewhat like Fuchsia flowers. Blossoms in the spring and in the fall. Grows 5-7 feet.

WEIGELA, ROSEA* (*Diervilla Rosea*)—One of the most charming shrubs in cultivation; the flowers are large and of deep rosy color, and are borne in great profusion. July. Grows 5-7 feet.

WEIGELA, VARIEGATED LEAVED—One of the best dwarf shrubs. Silvery variegated leaves, flowers nearly white. Grows 4-5 feet.

WITCH HAZEL (*Hamamelis Virginiana, Yellow*)—October. Grows well in shade. Unusual because of period of blooming. Grows 4-5 feet.

All for \$3.85

Price of all Varieties of Rose Bushes

Strong Bushes, 2 Year, No. 1, 75c each; 10 for \$7.00 (except where otherwise noted)

PARCEL POST—Roses can be sent by parcel post, postage prepaid, for 5c per bush extra.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st. 5 per cent discount on or before April 15th. 3 per cent discount after April 15th. We prepay transportation charges—see page 15.

Planting and Care of Roses

Plant roses in good rich soil. Dig the holes deep enough so they can be set in the ground two inches below where they were budded. Do not trim the roots off too severely, but cut the tops off about six to eight inches above the top of the ground. Pack good rich soil thoroughly around the roots.

Hybrid Tea Roses

The Everblooming or Hybrid Tea Roses, commonly called Monthly Roses, begin blooming in June and continue until frost.

BRIARCLIFF—Pure light pink flowers. Buds are perfectly formed, long and pointed, and the flowers are full with fine form, opening freely.

BRITISH QUEEN—One of the largest white roses in existence. Large, full flowers.

BUTTERFLY—Bright pink shading to apricot and gold. Blossoms are large. Very prolific bloomer.

ALL OF OUR ROSES HAVE BLOOMED IN NURSERY ROW.

MALONEY'S Choice ROSES

HYBRID TEA ROSES—Continued

GENERAL MacARTHUR

KILLARNEY PINK

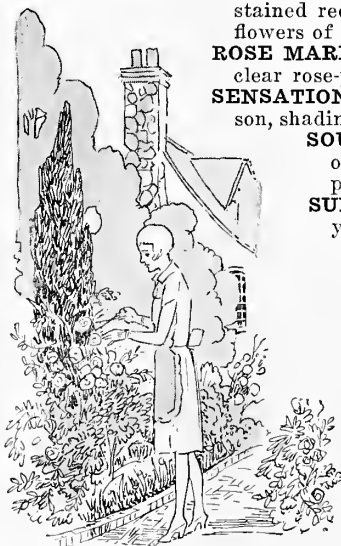

OPHELIA

K. A. VICTORIA

- COLUMBIA**—Beautiful true pink, deepening as it matures to a warm, glowing tone. Long stems mark it as a superior cutting variety.
- CRUSADER**—Produces freely large crimson flowers, shading from a lighter center to deep outer petals.
- DAME EDITH HELEN**—New variety in pure glowing pink, a self color throughout, and lasts until the petals fall.
- EDWARD MAWLEY**—A perfectly formed Rose of deep, blackish-crimson. Strong grower, fragrant and free of bloom.
- ETOILE DE FRANCE**—Deep red, which blooms all summer. Flowers large, full, velvety crimson and richly fragrant.
- FRANCIS SCOTT KEY**—Red, shading to cerise. Great profusion of petals regularly arranged. Sturdy and a good bloomer.
- GENERAL MacARTHUR**—Dazzling crimson scarlet, exquisitely perfumed. One of the grandest red roses ever offered.
- GRUSS AN TEPLITZ**—Bright scarlet, shading to rich, velvety crimson. Very fragrant, the freest grower and most profuse bloomer.
- H. V. MACHIN**—Gorgeous flowers of large size, intensely black-grained scarlet-crimson, sturdy stems.
- J. L. MOCK**—Hardy, very large, full and fragrant. Petals silvery pink, shading to carmine pink. A continuous bloomer.
- JOHN C. MENSING**—Deep bright rose pink, favoring the Ophelia type in construction and habit. Long buds, perfect flowers and sweet fragrance. \$1.50 each.
- KAISERIN AUGUSTA VICTORIA**—Elegant, large, pointed buds. Delicate creamy white; deliciously fragrant.
- KILLARNEY PINK**—Perfectly hardy, robust grower; color of sparkling brilliant imperial pink.
- KILLARNEY WHITE**—Similar to Killarney Pink in size, shape and fragrance, but pure white.
- LAURENT CARLE**—A large, brilliant, velvety carmine Rose of perfect form and intense fragrance.
- LORD CHARLEMONT**—Clear crimson deeping to carmine crimson. A beautiful, even and lasting shade. Well shaped, high centered flowers. Fragrant. Undoubtedly the best new crimson rose. \$1.50 each.
- LOS ANGELES**—Flame pink toned with coral and shaded gold at base of petals. Stem long and flowers large.
- MISS LOLITA ARMOUR**—Flowers are large, full double, deep coral red with a golden coppery-red suffusion.
- MME. JULES BOUCHE**—One of the finest white roses.
- MRS. A. R. BARRACLOUGH**—Bright, soft, sparkling pink of even shade throughout, shading to yellow at base. Color becomes brighter with age.
- MRS. CALVIN COOLIDGE**—Clear golden yellow, deepening in color, especially in the center as the flower expands, and retaining its color until the last, not fading. A great producer of fine blooms; excellent for cutting.
- MRS. AARON WARD**—Buds are deeply cupped, the open flowers delightfully attractive. Color, deep golden orange.
- OPHELIA**—Blossoms large, full and perfect. Attractive light salmon flesh coloring, shading to yellow.
- PREMIER**—Rich dark pink flowers of good size, fine form, pleasing fragrance.
- RED RADIANCE**—Wonderful, globular, heavy stemmed. Brilliant crimson.
- REV. F. PAGE ROBERTS**—The long, pointed buds are of a coppery-red, stained red on the outside, and open to good, full double, fragrant flowers of a golden-yellow. \$1.50 each.
- ROSE MARIE**—Large, long buds which open into large, full flowers; clear rose-pink.
- SENSATION**—The flowers are very large, double, splendid scarlet-crimson, shading much deeper in the autumn.
- SOUVENIR DE CLAUDIUS PERNET**—Long, pointed buds on long, stiff stems. Large, full flowers with elongated deep petals; yellow, deeper in the center.
- SUNBURST**—Flowers superb cadmium yellow with orange yellow center; large. The buds are long and pointed.

4 Strong, 2 Year, Hybrid Tea Roses Which Will Bloom All Summer. Regularly \$3.00.

Special Bargain Price, \$2.55

Hybrid Perpetual Roses

EVERY ONE HAS BLOOMED IN NURSERY ROW

Price of Strong Bushes, 2 Year, No. 1, 75c each; 10 for \$7.00,
(except where otherwise noted.)

Hybrid Perpetual Roses are not as free bloomers as the Hybrid Teas, but are completely hardy and of vigorous growth. They bloom tremendously in June and usually sparingly in autumn.

FRAU KARL DRUSCHKI (Snow Queen)—The finest white Hybrid Perpetual. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom.

GENERAL JACQUEMINOT—Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

GEORGE ARENDS—Clear, tender pink; good bud and perfectly formed flowers.

HARISON'S YELLOW—Extremely fragrant, profuse in bloom.

J. B. CLARK—Intense, deep scarlet, heavily shaded, blackish crimson. Large, full, with immense petals.

MADAME GABRIEL LUIZET—Flowers light silvery-pink, shading paler at petal edges. Bears an abundance of bloom.

MAGNA CHARTA—Pink and carmine; very large and full; a profuse bloomer. Fragrant.

MARGARET DICKSON—A free summer and autumn bloomer. Flowers white with pale flesh center; delightful fragrance.

PAUL NEYRON—The largest of all. Deep rose color. A free bloomer and vigorous grower.

PRINCE CAMILE DE ROHAN—Very dark velvety crimson, changing to intense maroon.

ULRICH BRUNNER—Large flowers of light red. The abundant flowers grow on long stems borne by a plant of very vigorous growth.

F. J. GROOTENDORST (Red Rugosa Rosa)—For group planting to give color contrast throughout season. Everblooming.

GEN. JACQUEMINOT

HARISON'S YELLOW

Dwarf Polyantha—Baby Roses, Everblooming

Price, 75c each; 10 for \$7.00.

Called the "Baby Rambler" on account of their very short, close growth. The flowers are borne in clusters of twenty or more. Bloom from May to November. Colors, crimson, pink and white.

Tree or Standard Roses, Price, \$2.75 each.

Dame Edith Helen—Pink, Red Radiance. For Description, See Page 10

Climbing Roses

Price, 2 Year, No. 1 Bushes, 50c each; 5 for \$2.35.

CRIMSON RAMBLER—Very vigorous, entirely hardy and extremely prolific. It blooms in clusters. Of a beautiful crimson color and lasts a long time.

DOROTHY PERKINS—Beautiful shell-pink. Flowers double, large, usually two inches across and borne in loose clusters.

EXCELSA—Brilliant scarlet-crimson flowers on plants of great vigor and beauty.

PAUL'S SCARLET CLIMBER—Vivid scarlet, good size, semi-double, freely produced in clusters of from 3 to 20 flowers each on much branched canes, the plants being literally covered from top to bottom with bloom.

SILVER MOON—Beautiful, semi-double, pure white, four inches in diameter, with a cluster of prominent yellow stamens in the center.

TAUSENDSCHON (Thousand Beauties)—Varies in color. A beautiful combination of colors, including several shades of pink. Semi-double.

VEILCHENBLAU (Blue Rambler)—Double flowers of light lilac, shading light purple and blue.

WHITE DOROTHY—Gained great popularity. Duplicate of Dorothy Perkins except in color.

YELLOW RAMBLER—Lovely yellow buds, which fade to creamy white as the flower opens.

MALONEY'S HEDGES

BEAUTY BUSH—*Kolkwitzia Amabilis*

Beauty Bush (*Kolkwitzia Amabilis*)

An exceedingly handsome ornamental shrub which has come to us from the wilderness of China and Central Asia. The foliage and habit are attractive even when the bush is out of flower, and it is perfectly hardy as far north as Montreal.

It grows 6 to 9 feet high when matured, erect and twiggy, producing long, arching branches covered in spring with clusters of small, tubular flowers of the honeysuckle type, borne in such profusion that the bush is one cloud of delicate pink.

Beauty Bush has all the merits of a perfect shrub: hardiness, year around beauty in foliage and habit, and an amazing profusion of flowers of beautiful color. Price, 18 to 24 inches, \$1.65 each; 3 for \$4.50.

Red Barberry Bush

BARBERRY, NEW RED-LEAF (*Berberis Thunbergi Atropurpurea*)—Similar to Barberry Thunbergi but the foliage of this new variety is of a rich, lustrous, bronzy red. It becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid orange, scarlet and red shades. Scarlet berries remain on the plant the entire winter. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. Grows 3 feet. Price, 15 to 18 inches, 75c each; 10 for \$7.00.

BARBERRY THUNBERGI—A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. 2 year, strong plants, well branched, 18 to 24 inches, 35c each; 10 for \$3.00; 100 for \$17.50. 2 to 3 feet, 45c each; 10 for \$4.25; 100 for \$22.50.

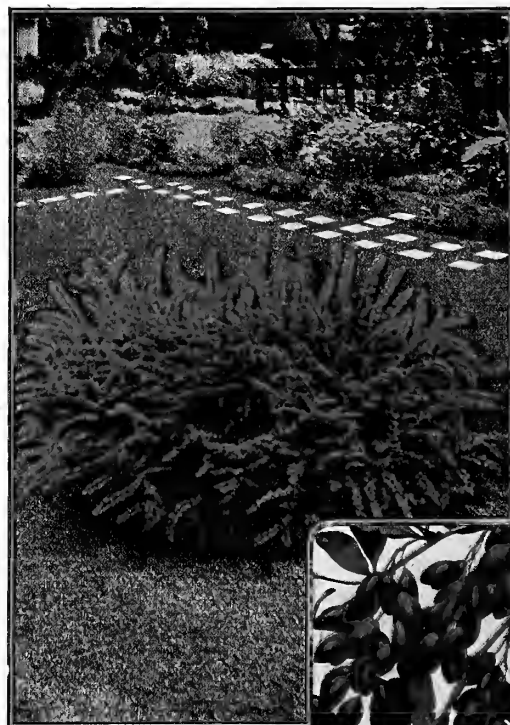

PRIVET, AMOOR RIVER—Hardy. Of similar form to the California type, not so lustrous, but the safest substitute for cold climates. 2 year, strong plants, well branched, 18 to 24 inches, 10 for \$1.50; 100 for \$10.00. 2 to 3 feet, 10 for \$1.75; 100 for \$12.50.

PRIVET, CALIFORNIA—Of all ornamental hedge plants this is the most highly prized. The leaves are a rich green and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. Set one foot apart in double rows or 20 to each 10 feet. Plant alternately—rows one foot apart. 2 year, strong plants, well branched, 18 to 24 inches, 10 for \$1.00; 100 for \$6.00. 2 to 3 feet, 10 for \$1.25; 100 for \$8.00.

CALIFORNIA PRIVET

10% Discount on all Cash Orders Received On or Before April 1st. See Page 15.

NEW RED-LEAF BARBERRY

Tune in on WGY

Feb. 14

Mar. 26

On the two dates mentioned Mr. W. J. Maloney himself will talk over WGY, from 7:00 until 7:15 p. m. Valuable information in regard to the Home Grounds and Orchards will be imparted. Be sure to tune in on both evenings.

CATALPA BUNGEI

ORNAMENTAL TREES

YOUR home may be beautiful inside—but most people judge it from its outside appearance. Even those who enter your doors as visitors receive their first impression from your lawn and house exterior. Handsome as your rooms within may be, they take on an added charm and richness if visitors are greeted first by a proper outside setting. And the cost is usually so trifling!

BECHTEL'S CRAB

BECHTEL'S CRAB—When in bloom appears to be covered with delicate pink, perfectly double small roses of delicious fragrance. Price, 3-4 feet, \$1.25 each.

BIRCH, COMMON WHITE—An attractive, white-barked tree. Strong grower. Price, 7-9 feet, \$2.00 each.

BIRCH, CUT-LEAVED WEEPING—Its tall, slender, yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree. Price, 4 to 5 feet, \$2.50 each.

CATALPA BUNGEI (Umbrella Catalpa)—It makes an umbrella-shaped top without pruning. Perfectly hardy, and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped. Price, 6 to 7 feet, \$2.50 each.

CATALPA SPECIOSA—Rapid grower. Large, heart-shaped, downy leaves, and compound panicles of white flowers. Price, 6 to 8 feet, 90c each; 10 for \$8.50. 8 to 10 feet, \$1.10 each; 10 for \$10.00.

ELM, AMERICAN—A natural spreading and drooping tree of our own American meadows and forests. Is entirely hardy and easily transplanted. Price, 8 to 10 feet, \$2.00 each; 10 for \$17.50. 10 to 12 feet, \$2.50 each; 10 for \$22.50.

FLOWERING PEACH—In May every branch is covered with a mass of beautifully formed, double flowers, producing a charming effect. Price, 3 to 4 feet, \$1.00 each.

HORSE CHESTNUT, WHITE FLOWERING—Very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior. Price, 4 to 5 feet, \$1.75 each.

JAPANESE FLOWERING CHERRY—A double flowering form of the common cherry. Double white flowers flushed with pink at tips of petals. Fragrant. Price, 3 to 4 feet, \$2.50 each.

LINDEN, AMERICAN—Large, stately tree with heart-shaped flowers. Price, 6 to 8 feet, \$2.50 each. 8 to 10 feet, \$3.00 each.

LINDEN, EUROPEAN—A medium growing, symmetrical shaped tree with dense foliage. The leaves are deep green above, silvery beneath. Very attractive yellowish-white flowers appear in June in drooping clusters of from five to twenty blossoms to a cluster. Price, 8 to 10 feet, \$3.00 each.

✦ Maloney Prices Are Low, Based On First Quality, Selected Stock. We Pay Transportation. See Page 15 for States. ✦

ORNAMENTAL TREES

MAPLE, ASH-LEAVED (Box Elder)—Fine, rapid grower, with handsome light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive. Price, 8 to 10 feet, \$1.50 each. 10 to 12 feet, \$2.00 each.

MAPLE, NORWAY—This is one of the hardiest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple. Price, 6 to 8 feet, \$2.50 each; 10 for \$22.50. 8 to 10 feet, \$3.50 each; 10 for \$32.50. 10 to 12 feet, \$4.50 each; 10 for \$42.50.

MAPLE, SILVER-LEAVED OR SOFT—Foliage bright green above and silvery underneath. An exceedingly rapid grower, makes a large tree. Price, 8 to 10 feet, \$1.75 each; 10 for \$16.00. 10 to 12 feet, \$2.25 each; 10 for \$20.00.

MAPLE, SCHWEDLER—Reddish purple foliage in early spring, changing to deep bronze in fall. Price, 6 to 8 feet, \$3.00 each.

MAPLE, SUGAR OR ROCK—Is considered slow grower, but long-lived. Price, 8 to 10 feet, \$3.00 each. 6 to 8 feet, \$2.50 each.

MAPLE, WIER'S CUT-LEAVED—Beautiful tree with cut or dissected foliage. Shoots slender and drooping, as graceful as cut-leaved birch. Price, 8 to 10 feet, \$2.00 each; 10 for \$17.50. 6 to 8 feet, \$1.75 each; 10 for \$15.00.

MOUNTAIN ASH, EUROPEAN—A very beautiful tree for ornamental planting. In the early fall it bears clusters of bright red berries. Price, 6 to 8 feet, \$2.00 each. 8 to 10 feet, \$2.50 each.

MULBERRY, DOWNING—Not alone valuable for the large, refreshing berries, but is very handsome as a lawn or street tree. Price, 6 to 8 feet, \$1.50 each; 10 for \$12.50.

MULBERRY, RUSSIAN—Very hardy, vigorous grower, very productive, fruit black and of medium size. Price, 5 to 7 feet, 75c each; 10 for \$6.50.

MULBERRY, TEA'S WEeping—The most graceful and hardy weeping tree. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground. Price, 5 feet, \$3.00 each.

OAK, PIN—Fastest growing of all the oaks and easily transplanted. Best shade tree for damp or heavy soil. Price, 5 to 6 feet, \$3.00 each.

OAK, RED—Young shoots come out crimson in the spring and leaves turn purplish crimson in the fall. Price, 5 to 6 feet, \$3.00 each.

ORIENTAL PLANE—A hardy, rapid growing tree. Beautiful dense foliage. Price, 6 to 8 feet, \$1.75 each.

POPLAR, CAROLINA—The most rapid grower among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. Will grow in any kind of soil. Price, 6 to 8 feet, 50c each; 10 for \$4.50; 50 for \$20.00. 8 to 10 feet, 75c each; 10 for \$6.50; 50 for \$25.00. 10 to 12 feet, \$1.00 each; 10 for \$9.00; 50 for \$32.50.

POPLAR, LOMBARDY—Well known for its tall, spire-like form. Where it is desired to mark a boundary line, or where there is an entrance to a driveway these trees are very effective. They transplant safely, grow quickly. Price, 6 to 8 feet, 75c each; 10 for \$7.00. 8 to 10 feet, \$1.25 each; 10 for \$11.50.

PRUNUS PISSARDI (Purple-Leaved)—Leaves when young are a lustrous crimson, changing to dark purple, and retain this beautiful tint until they drop late in the autumn; no other purple-leaved tree retains its color like this. Flowers small, white, single, covering the tree. Price, 4 to 5 feet, \$1.00 each.

PRUNUS TRILOBA, DOUBLE FLOWERING PLUM—Flowers double, delicate pink. Price, 4 to 5 feet, \$1.00 each.

THORN, PAUL'S DOUBLE SCARLET—Flowers deep crimson with scarlet shade; very double. Price, 4 to 5 feet, \$2.00 each.

WILLOW, BABYLONICA—Well known weeping variety; forms a large round-headed, graceful tree; is quite desirable. Price, 6 to 8 feet, \$1.25 each.

WILLOW, CAPREA (Pussy Willow)—Quick growing tree, useful for tall background or screen purposes, with fur-like catkins along its branches early in the spring. 4 to 6 feet, \$1.00 each.

WILLOW, GOLDEN—Especially desirable on account of its golden colored bark with light green leaves. A splendid grower. Price, 6 to 8 feet, \$1.25 each; 10 for \$10.00.

LINDEN

10% Discount and Free Transportation Offer for 1929

THE discount is given with the idea of improving Maloney Service. If everybody waited until the last minute no one could be properly served. Besides, orders are filled in rotation; the early orders enjoy the benefit of first selection. All Maloney stock is superior; first selection simply means an added advantage for you. Therefore, we allow **10 per cent discount** on all cash orders mailed on or before April 1st. **5 per cent discount** on or before April 15th. **3 per cent discount** after April 15th.

Or we will allow **5 per cent discount** for one-fourth cash with orders mailed on or before April 1st and balance C. O. D., paying Expressman, Mailman, or Freight Agent when delivery is made.

WE PREPAY TRANSPORTATION on all orders of \$7.50 or more received during the entire Spring season of 1929 to all points in the following states:

Connecticut, Delaware, District Columbia, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

To the following states we will reimburse you for one half transportation: Kentucky, Missouri, North Carolina, Wisconsin.

OUR SHIPPING SEASON usually opens about the 25th of March and continues through May.

RATES—Less than ten at each rate. Ten to fifty at ten rate. Fifty or more at hundred rate.

TERMS—Ten per cent discount on all cash orders mailed on or before April 1st. Five per cent discount on or before April 15th. Three per cent discount after April 15th. We will ship trees and plants C. O. D., providing 25 per cent of the total of your order is sent in cash with order. We will also allow 5 per cent discount if your order reaches us on or before April 1st, no discount on C. O. D. orders after April 1st. If the order goes by express you pay the balance to your express agent upon arrival. If the order goes by freight you pay the balance at your bank, where you will also find Bill of Lading which you present to your freight agent, who will deliver shipment to you.

ORDERS FOR LESS THAN \$2.50. If your order amounts to less than \$2.50, add 25c extra to cover packing cost. As it costs us just as much to pack and prepare small orders as it does large ones, we find it necessary to ask you to add 25c extra on all orders for less than \$2.50.

YOUR BEST PROTECTION—BUY OF RESPONSIBLE PEOPLE.

Landscape Service

OWING to the many requests, asking what varieties of trees, shrubs, roses, etc., to plant for best effects and where to plant them, we maintain a Landscape Service Department for the convenience of our customers.

In this department we are employing landscape architects, who are familiar with the habits of varieties, who know the positions required for the different kinds, and who have an extensive knowledge of trees and plants.

You really save money by using this service, because you thereby get the best effects with the smallest number of plants, and no waste. One gorgeous plant, flanked by less expensive ones, is often more effective than a greater number of pieces which might total a larger cost. Again, on large grounds, by having a plan you can divide the expenditure by planting part of the grounds each year, building to a beautiful finished work of art.

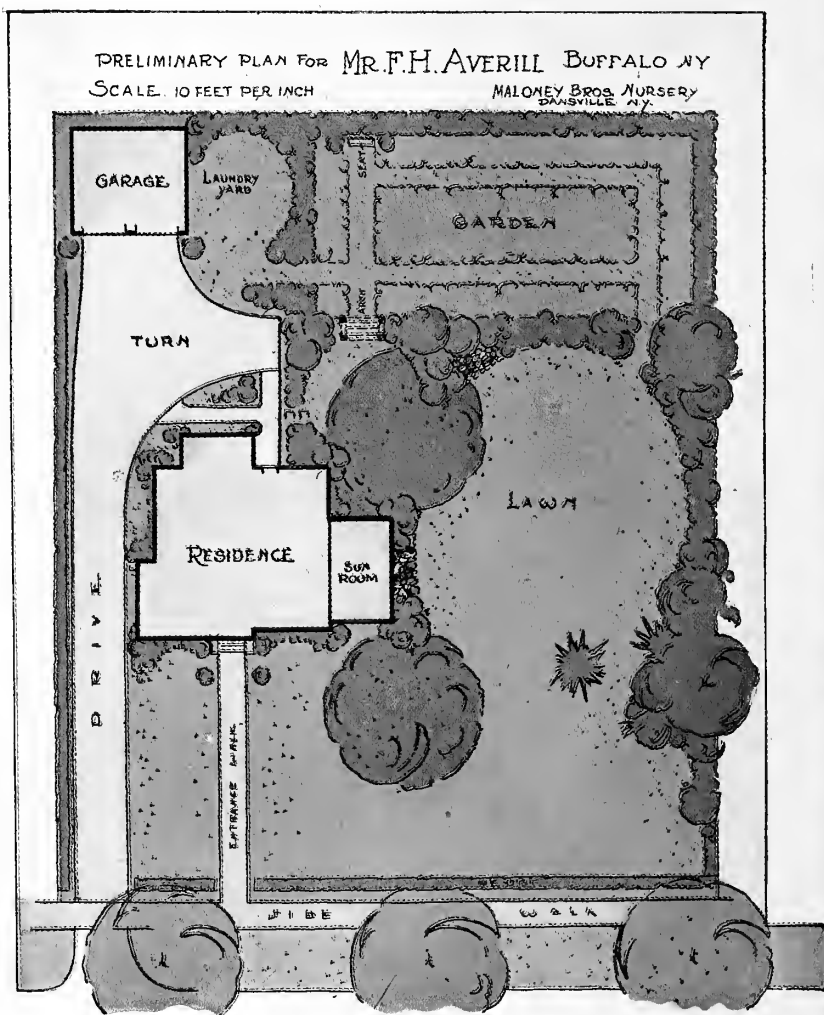

Kindly send the information requested below, and our Landscape Department will draw you a complete plan showing what varieties to use and where to plant them. For this plan we will make a charge of \$4.00. Then if your order amounts to \$35.00 or more you may deduct the \$4.00 cost of plan when remitting. Cost of plan not deductible for order under \$35.00.

Necessary Information

(The accuracy of our plan depends upon the information you give us, so be complete and exact.)

Dimensions of Property, Dimensions of Buildings (Show ground floor plan on sketch and give complete dimensions)—Distance of Buildings from Property Lines (Locate in respect to Front, Back and Side Lines), Cost of House, Style of Architecture—Locate all entrances, Locate walk and drives and give width; Locate porch and basement windows; (Indicate Coal and Laundry Windows); Show number of steps; Locate existing trees and shrubs of any description; Indicate any terraces or sloping ground; Give directions of the compass; Indicate objectionable features to be screened; Indicate views to be retained; Send any available photographs. Do you want a vegetable and fruit garden? Do you want a Hardy Flower Garden?

*Maloney's stock is selected and first quality. We pay transportation.
See page 15 for states.*

EVERGREENS

All evergreens will be lifted with ball of earth and roots wrapped in burlap. Leave ball of earth and burlap on when planting. Wet ground after planting until like mud, then one pail of water each week for first summer. Do not trim tops of evergreens.

ARBOR VITAE, AMERICAN — A beautiful native tree much used for hedges, screens, singly on lawn and in tubs for porches. Can be trimmed and kept in any form or height. Price, 18-24 inches, \$1.60 each; 10 for \$14.50. 2-3 feet, \$2.00 each; 10 for \$18.50.

ARBOR VITAE, GLOBOSA—Forms a dense, low globe; handsome shade of green. Price, 12-18 inches, \$3.00 each.

ARBOR VITAE, GOLDEN—Dwarf, dense-growing variety, holding its golden yellow color all summer. 18-24 in., \$3.50 each.

ARBOR VITAE, PYRAMIDAL — A valuable upright evergreen of dense, compact habit. Foliage light green. Price, 2-3 feet, \$4.50 each.

ARBOR VITAE, TOM THUMB — Small and compact. Very desirable for planting in evergreen groups and low hedges. Price, 15-18 inches, \$2.50 each.

SCOTCH PINE—*Pinus sylvestris*
Beautiful for Individual Planting

PINE, SCOTCH—A very rapid grower. The branches strong. Foliage is a bluish green. Price, 2-3 feet, \$3.00 each; 10 for \$27.50.

RETINISPORA PISIFERA — Foliage feathery light green, glaucous beneath. Price, 18-24 in., \$3.75 each.

RETINISPORA PLUMOSA (Plumed Cypress)—This is one of the best pyramidal varieties. Foliage a grayish green, very finely cut and has a feathery appearance. Price, 18-24 inches, \$3.00 each.

RETINISPORA PLUMOSA AUREA (Golden Plumed Cypress)—Soft, plume-like, golden foliage, particularly bright in spring and contrasting beautifully with green grass and other evergreens. Price, 18-24 inches, \$4.00 each.

SPRUCE, COLORADO BLUE—This is hardy, healthy and very beautiful. Its foliage is a steel blue. Price, 18-24 inches, \$7.50 each.

AMERICAN ARBOR VITAE
Balled and Burlapped

DOUGLAS FIR—Popular for its hardiness and great beauty; dark green. Price, 2-3 feet, \$3.25 each; 10 for \$30.00.

JUNIPER, IRISH—A distinct and beautiful variety, forming a tapering column. Much used for cemetery plantings. Price, 2-3 feet, \$3.00 each.

JUNIPER, PFITZERS—Of the spreading type this is perhaps the most popular. Foliage a grayish green, slightly drooping and branches are horizontally spreading. Price, 18-24 inches, \$4.00 each.

PINE, AUSTRIAN—A strong, hardy grower, fine for windbreaks; grows rapidly on light, sandy soil. Price, 2-3 feet, \$3.25 each; 10 for \$30.00.

EVERGREENS—Continued

SPRUCE, BLACK HILL—Makes a very close and compact growth. The foliage shades from green to a bluish tint. This is a very hardy variety. Price, 2-3 feet, \$4.00 each.

SPRUCE, NORWAY—The most extensively planted of all evergreens. It is a rapid grower, extremely hardy. Is often used for hedges or can be planted effectively in groups. Price, 18-24 inches, \$1.50 each; 10 for \$12.50. 2-3 feet, \$1.75 each; 10 for \$15.00; 100 for \$135.00.

TAXUS CUSPIDATA (Japanese Yew) — One of the hardiest of Yews. Bushy, upright, spreading nature, with rich green foliage. A beautiful, medium sized specimen, equally well suited for foundation planting. Price, 18-24 inches, \$6.00 each.

TAXUS NANA, BREVIFOLIA (Dwarf Japanese Yew) —Irregular, unique outline, with deep green foliage. Very popular for a place where a low, spreading plant is wanted. Price, 12-15 inches, \$4.00 each.

VIRGINIANA GLAUCOA (Blue Cedar)—Its beautiful glaucous blue foliage makes it one of the choicest Junipers. Price, 2-3 feet, \$5.50 each.

EVERGREEN SHRUBS

ARE most desirable for landscape planting because they present a magnificent display of beauty and color when in bloom during the early spring. Moreover, their masses of foliage retain their coloring throughout the entire year and provide a pleasing touch of green in the landscape.

Azaleas

AMOENA (Hardy Evergreen Azalea)—Low, bushy shrub, small green leaves, changing in winter to a bronze or coppery brown. In spring covered with a wealth of claret-purple flowers which continue to open for a period of 2 or 3 weeks. 15 to 18 inches, \$3.50 each.

LUTEA CALENDULACEA (Flame Colored Azalea)—Ranging from flame color through shades of red and yellow, remaining in bloom for several weeks. Grows in cultivation from 6 to 8 feet high. 15 to 18 inches, \$2.50 each.

Rhododendrons

CAROLINIANUM (Carolina Rhododendron) — Most beautiful of American Rhododendrons. Flowers appear in June, in great profusion, a beautiful pink. Will stand exposed locations, perfectly hardy, thriving in either sun or shade. 2 to 3 ft. clumps, \$4.00 each; \$35.00 per 10.

RHODODENDRON

CATAWBIENSE —Flowers a bright rose-purple, borne in large clusters at the ends of the branches. Perfectly hardy in Northern latitudes and one of our very finest broad-leaved evergreens. 2 to 3 ft. clumps, \$4.00 each; \$35.00 per 10.

PANICULATA CLEMATIS

VINES

Give Shade and Ornamentation

Strong, 2 year Vines—Prices (except where otherwise noted): 50c each.

Parcel Post—Vines can be sent parcel post, postage prepaid, for 3c per vine extra.

AMERICAN IVY OR VIRGINIA CREEPER—A native vine of rapid growth, with large, luxuriant foliage.

AMPELOPSIS VEITCHI (Boston Ivy)—This is one of the finest climbers we have for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving it the appearance of being shingled with green leaves.

BITTERSWEET (Celastrus) — Handsome, glossy foliage and large clusters of beautiful, orange crimson fruits retained all winter. Its graceful sprays of berries make charming winter house decorations. 60c each.

DUTCHMAN'S PIPE (Aristolochia)—Brownish flowers, resembling a miniature pipe; splendid for archways or verandas. \$1.00 ea.

HALL'S JAPAN HONEYSUCKLE (Lonicera Japonica Halliana)—An almost evergreen honeysuckle of great value, hardy and of strong growth. The flowers are fragrant, of a pure white, changing to yellow.

HENRYI CLEMATIS—A vigorous grower and a free bloomer, producing its large, pure white flowers constantly during the summer and early autumn. 95c each.

JACKMANNI CLEMATIS—Flowers large, intense, rich, velvety violet-purple, and produced in masses forming a cloud of bloom. 85c each.

MAD. ANDRE CLEMATIS—The flowers are a distinct crimson red. 85c each.

MATRIMONY VINE—Ornamental shrubby climber. Small, purplish flowers in summer, followed by scarlet berries until late in winter. 60c each.

PANICULATA CLEMATIS—Rapid grower, covering trellises and arbors with handsome, clean, glossy foliage. The flowers are of medium size, fragrant, pure white, borne in immense sheets in September, when very few other vines are in bloom.

TRUMPET VINE (Bignonia Radicans)—A robust, woody vine. Its orange scarlet, trumpet-shaped flowers cluster at the tip of the branches.

WISTERIA, CHINESE PURPLE—A most beautiful climber of rapid growth and producing long, pendulous clusters of flowers. 75c each.

WISTERIA, WHITE—Same characteristics as Wisteria Purple. 75c each.

NUT TREES

Every garden or lawn should contain one or more nut trees, for they are well shaped and provide splendid shade.

AMERICAN FILBERT—The common Hazelnut. Will grow in almost any location. Nuts are tender and of fine flavor. Price, 3 feet, 85c each; 10 for \$8.00.

BLACK WALNUT—The common Black Walnut is very productive in nuts, which are liked by many. Price, 5 to 6 feet, 90c each; 10 for \$8.00. 4 to 5 feet, 80c each; 10 for \$7.50.

BUTTERNUT—A fine native tree. Price, 4 to 5 feet, 85c each; 10 for \$7.50.

CHESTNUT, AMERICAN SWEET—Adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes. Price, 4 to 5 feet, \$1.00 each; 10 for \$9.00.

DANSVILLE, N. Y.

COREOPSIS

MALONEY'S

FOXGLOVE, DIGITALIS
—June to September. A great favorite. Tall spires 4 to 6 feet high. Thimble-shaped flowers in shades of white, pink, purple.

GAILLARDIA—Large flowers, yellow and orange-red. Early summer to November.

GOLDEN GLOW (Rudebeckia)—Golden yellow, produced in profusion. August and September.

HARDY ASTER—Very popular. A fine collection in mixed colors. Late fall.

HARDY CARNATIONS—Flowers large, very double, almost rival greenhouse carnations in size and beauty. A very valuable hardy plant. We offer them in double red and double yellow. July to late fall.

HARDY CHRYSANTHEMUM—Indispensable for late fall bloom. Colors, bronze, pink, red, white, yellow.

HARDY GARDEN PINKS (Dianthus Plumarius)—May and June. The old-fashioned fragrant variety.

HELENIUM (Riverton Gem)—Old gold, changing to red. A very beautiful plant. August and September.

HELIOPSIS—Golden yellow, zinnia-like flowers, useful for cutting. 2 feet. July and August.

HIBISCUS (Mallow Marvel)—A new introduction, valued for its large, attractive flowers, measuring 6 to 8 inches in diameter. A mixture of various shades of pink, red and white. Fall.

HOLLYHOCKS—No perennial garden is complete without these. Their graceful spikes are a mass of flowers all summer. Double pink, white, yellow and scarlet.

LEMON DAY LILY (Hemerocallis Flava)—Fragrant, golden yellow flowers in large clusters. 2 feet. May and June.

MEADOW SAGE (Salvia Azurea Grandiflora)—Pretty spikes of pale blue flowers in August and September. Profuse bloomer. 3 feet.

ORNAMENTAL GRASS (Eulalia)—Very handsome, narrow foliage; bright green, with a white mid-rib.

PAINTED DAISY—Provides not only a colorful garden show from June on throughout the summer, but also a charming cut flower. Red and pink.

PENTSTEMON—Border plants of long summer blooming. Flowers somewhat resembling Foxglove.

SHASTA DAISY—Large, snow-white flowers throughout the fall.

TRITOMA (Red Hot Poker or Flame Flower)—Tall spikes surmounted by brilliant orange-scarlet flower heads. August to September.

SWEET WILLIAM (Dianthus Barbatus)—May and June. Single. All colors mixed.

Canna Bulbs

Bloom From Midsummer Until Frost

GOLDEN EAGLE—Very free and early, of a clear golden yellow, throwing its showy trusses well above the foliage. No other pure yellow equals it in all around worth and effectiveness. 4 feet.

KING HUMBERT—The finest canna grown. Foliage rich reddish bronze. Flowers orange scarlet.

MRS. WOODROW WILSON—Green foliage. Large, rose-pink blossoms.

NOKOMIS—Very effective, large, deep crimson flowers, well above the bronze green foliage. Unique and effective. 4½ feet.

Iris

May and June

BLUE KING—Clear bright blue.

GERTRUDE—Purple.

HER MAJESTY—Upper petals lovely rose pink; lower petals bright crimson, shaded darker.

HONORABILIS—Upper petals golden yellow. Lower petals rich mahogany.

SHERWIN WRIGHT—Deep golden yellow.

PERENNIALS

Continued

Larkspur--Delphinium

BELLADONNA—Vigorous, new sort. Large spikes of delicate turquoise blue. June until frost.

FORMOSUM—The old fashioned favorite. Dark blue flowers. June and July.

Phlox

July - October

ECLAIREUR—Salmon scarlet, clearly defined crimson eye.

MRS. JENKINS—Pure white. Very early.

RHINELANDER—Handsome, salmon-pink. Red eye.

RIJNSTROM—Beautiful clear pink. Large flower.

R. P. STRUTHERS—Bright rosy red; crimson eye.

THOR—Deep salmon-pink, overlaid with scarlet.

VON HOCKBURG—Brilliant cherry-red.

BLEEDING HEART—One of the most delightful of early spring flowering plants. Bears numerous rosy red, heart-shaped flowers in drooping clusters. 50c each; 10 for \$4.75.

ORIENTAL POPPY (Papaver)—Scarlet shade. Large, showy. June. 35c each; 10 for \$3.25.

Dahlia Tubers

Blooms Late Fall

Price, 50c each; 10 for \$4.00; except as noted.

CHAMPAGNE—Golden champagn, with chamois shadings. Price, \$1.00 each.

FLORADORA—Dark red, fine form; free; one of the best.

GOLDEN WEST—Large, pure yellow, very free on long stems.

J. H. JACKSON—Rich, velvety maroon. Very large. One of the best dark ones.

LYDIA POOLE—Large, lavender pink, with excellent stems. Price, \$1.00 each.

MARGUERITE BOUCHON—One of the finest pink exhibition dahlias. Brilliant rose-pink, with a delicate white center. Very large on long stems.

PERLE DE LYON—Pure white. The petals are cleft, giving the flowers an attractive appearance. Excellent for cutting.

THE GRIZZLY—Deep maroon. A very large flower on long stems. A free bloomer. Price, \$1.00 each.

Gladioli Bulbs

Late Fall

Price, 15c each; 10 for 90c; 25 for \$1.75.

BARON HULOT—Rich, dark blue. Extra fine.

EVELYN KIRTLAND—New. Beautiful shade of rosy pink, darker at edges, fading to shell pink at the center, with brilliant scarlet blotches on lower petals.

HERADA—New. The large blooms are blue, glistening and clear, with deeper markings in the throat.

PEACE—Very large white, with faint markings on lower petals.

SCHWABEN—Yellow, with crimson center. Magnificent. Large flower.

WAR—A new blood red variety. Extra fine.

Lily Bulbs

Price, 50c each; 10 for \$4.50.

SPECIOSUM ALBUM—Pure white, with a green bank traversing the center of each petal. August.

SPECIOSUM MAGNIFICUM—Large flowers of rich, deep red. August.

DANSVILLE, N. Y.

HARDY CHRYSANTHEMUMS

To introduce our splendid Hardy Chrysanthemums, we will send ten plants, two of each listed, for

\$2.00

SPECIOSUM RUBRUM—Blooms profusely during August. Petals white, spotted with crimson.

THE REGAL LILY (Regale)—Spikes of medium height, bearing several large, fragrant blooms on a stem. White with yellow center, shaded rose on outside of petals. Early July. One of the very best hardy Lilies.

Peonies

May and June

Price, 50c each; 10 for \$4.50 (except where otherwise noted).

DELACHIE—Valuable, late red. Very rich.

EDULIS SUPERBA—Famous Memorial Day Peony; beautiful clear pink, silvery reflex; large, fragrant flowers.

FELIX CROUSSE—Flowers are of a rich, brilliant, dazzling, ruby-red, exceptionally fiery, bright and effective. 75c each.

FESTIVA MAXIMA—Flowers white, carmine center.

FRAGRANS—Rose color.

MADAM DREXEL—Bright, sea-shell pink, overlaid with delicate lilac and salmon pink. 75c each.

MADAME GAUDICHAU—One of the darkest peonies in the world, and in the spring has a most beautiful and luxuriant foliage. (For illustration see front cover.) Price, \$3.00 each.

THERESE—This is a very large, double pink peony, and one of the very best. Should be included in every collection of choice peonies. (For illustration see front cover.) Price, \$3.00 each.

The Fruitful Garden

BECAUSE fruit, bought of hucksters, is often expensive, some people feel that fruit trees are costly to buy and hard to raise successfully. The fact is that for a very few dollars the average home can raise a surprising quantity of excellent fruit in great variety.

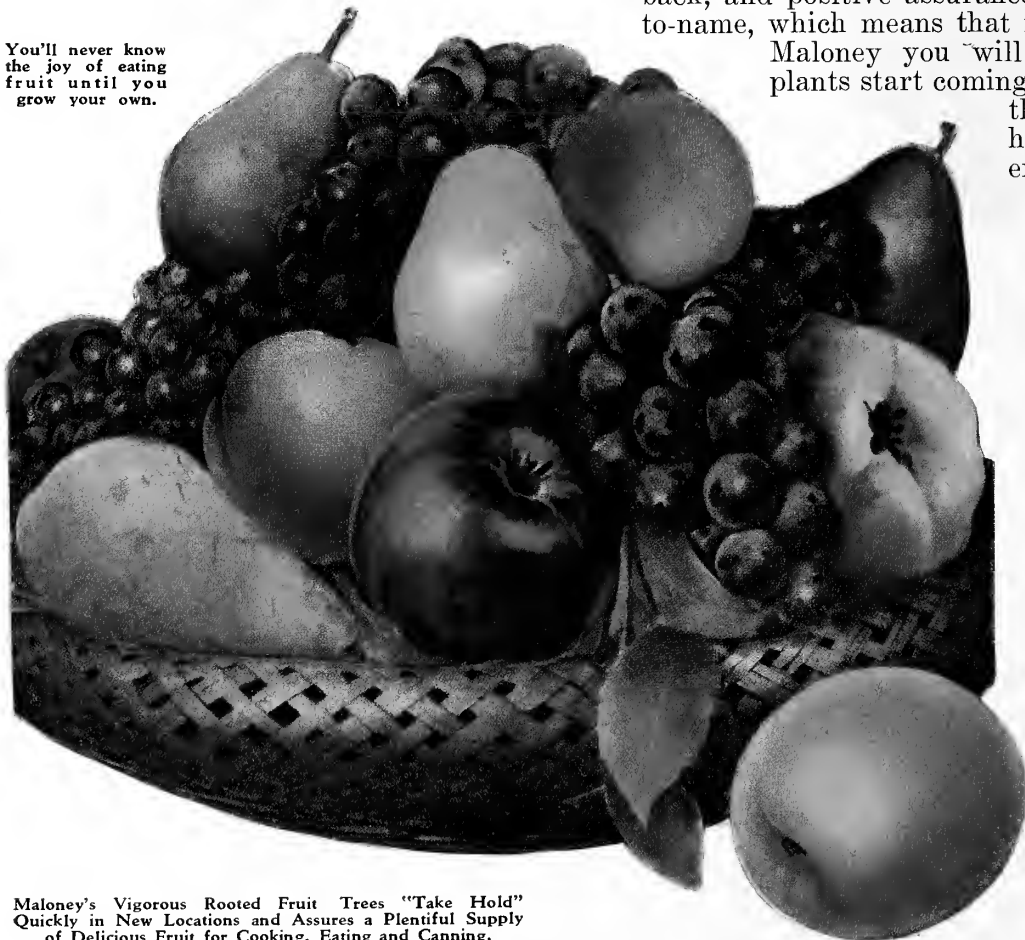

Grape vines, bearing huge flavory bunches, can be trained along the sides of the garage, adding to its beauty. Grapes trained along fences add charm to the grounds and save money in the kitchen. A few grape vines will hide any necessary building that is the least bit unsightly.

Berry bushes, planted close to the rear walls of the home, improve its appearance and pay for the small space that they occupy with luscious fruit for the breakfast table. Bare spots in the back yard and little odd nooks hidden away here and there often make ideal locations to plant berries. Brilliant red strawberries peeping up through green leaves lend an effective touch; while a taller bush, bearing perhaps raspberries, blackberries, or currants, give individuality and novelty.

You'll never know
the joy of eating
fruit until you
grow your own.

A few fruit trees wisely placed yield shade, beauty, pleasure, and very often profit from the sale of the fruit.

And even in a small yard you can raise a remarkable variety — gooseberries, currants, strawberries, raspberries, apples, plums, cherries, peaches, pears, grapes. Look through the following pages. See what a surprising assortment you can buy for only a small amount of money. Remember, Maloney stock comes to you prepaid under a guarantee of satisfaction or your money back, and positive assurance that it is true-to-name, which means that if you buy from Maloney you will get, when the plants start coming up, just exactly the fruit that you have a right to expect.

GRAPE VINES

EVERY city and country garden should have grape vines. They occupy little room and supply an abundance of the most healthful fruit. Plant about 8 feet apart, in the rows, and the rows proper 8 feet apart.

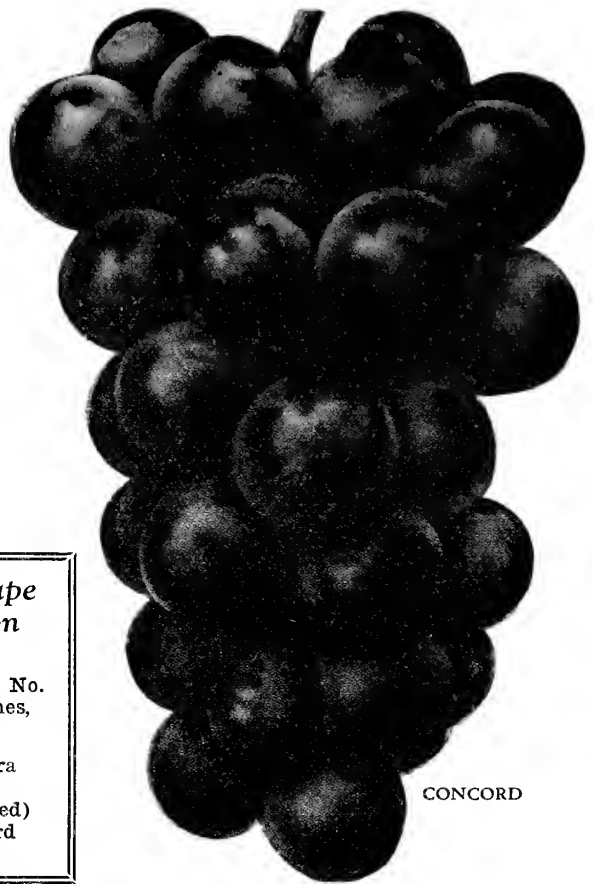

CACO

Ideal Grape Collection No. 13

Six Two Year, No. 1, Strong Vines,
\$1.50

Two Niagara (White)
Two Caco (Red)
Two Concord (Black)

CONCORD

Price, 2 Year, No. 1, Strong Vines, except where otherwise noted—25c each; 10 for \$2.00; 100 for \$18.50.

PARCEL POST—Grapes can be sent by parcel post, postage prepaid, for 5c per vine extra.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st. 5 per cent discount on or before April 15th. 3 per cent discount after April 15th.

CACO (Red)—This new red grape has a most delicious flavor, and is of the highest quality. It is one of the earliest grapes in ripening. 65c each; 10 for \$5.50.

CATAWBA—Dark red when fully ripe. Bunch large, berries medium to large, skin thick, flesh somewhat pulpy, best for wine.

CONCORD (Black)—Early. Decidedly the most popular grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom; skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable. 20c each; 10 for \$1.50; 100 for \$10.00.

CAMPBELL'S EARLY BLACK—Bunch and berry very large; sweet and juicy. Stands at the head of early black grapes for quality.

DAISY (Black)—The earliest grape known. Is of medium size in both bunch and berry and very compact. Its berries never crack nor drop from the cluster. Ripens a week before Moore's Early. 50c each; 10 for \$4.00.

DELAWARE (Red)—Bunches small, compact, shouldered; berries rather small, round, skin thin, flesh very juicy, sweet, spicy and delicious.

LUCILE (Bright Red)—It is very hardy and vigorous. Bunches and berries medium to large. This variety is a very good shipper.

MOORE'S EARLY BLACK—Bunch large, berry large, round with heavy bloom.

NIAGARA WHITE—Bunch and berries large, greenish white, changing to yellow when fully ripe.

PORTLAND—New white grape. Developed by the New York State Exp. Station. Very early, hardy and productive. Large berries and compact clusters. Follows Daisy in ripening. 65c each; 10 for \$5.50.

WORDEN (Black)—Bunch large, sometimes shouldered, compact; berries very large, skin thin.

Note Our Special Discount and Free Transportation Offer on Page 15

NIAGARA

Maloney's Strawberries

Price, Mailed, Postpaid: 25 for \$1.25; 100 for \$2.75. Express: 25 for \$1.00; 100 for \$2.50; 500 for \$10.00; 1000 for \$15.00.

For garden culture set plants in rows two feet apart, with plants one foot apart in the rows.

COOPER (Per.)—A new variety that is very highly recommended by those who have tested it. Probably the largest berry grown, a beautiful bright red color, firm and deliciously sweet in flavor. A very heavy bearer, extending its picking season over several weeks. Mid-season.

EXCELSIOR (Per.)—The earliest of berries; fruit medium size, round-conic, dark scarlet; flesh colored; tart; will ripen ten days before most sorts.

GIBSON (Per.)—In many places the leading market berry; large, even shape, holding its size well till the end of the season; glossy, dark red extending through the entire berry; firm and of high quality, ripening over a long season. Medium to late.

Fall Bearing Strawberries

Price, Mailed, Postpaid: 25 for \$1.75; 100 for \$4.00.
Express: 25 for \$1.50; 100 for \$3.75.

Americus Superb Productive

These varieties will fruit from June until freezing weather.
All Strawberry Plants will be Shipped the First Week in May.

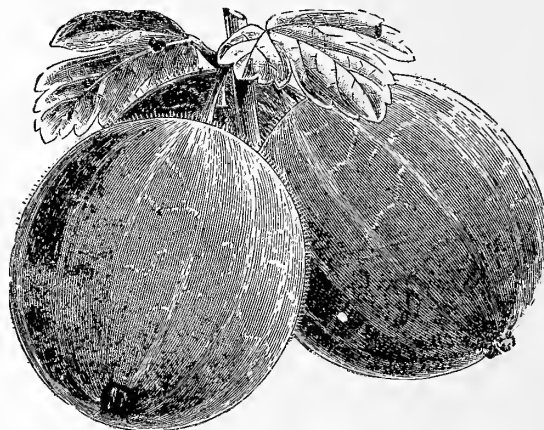

Gooseberries

Prices of All Varieties of Gooseberries.

Strong, 2 year bushes, 45c each; 10 for \$4.00
Parcel Post 5c per bush extra.

DOWNING—Large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew. Light yellow.

RED JACKET—Large size, smooth, prolific and hardy, of best quality. Has been well tested by the side of all the leading varieties, and so far the most free from mildew, both in leaf and fruit, of them all. A wonderful cropper.

RED JACKET GOOSEBERRY

100 for	5.50
500 for	20.00

Greatest and most successful Everbearing Strawberry in the United States. Starts bearing in July and continues until freezing weather. Berries large, well colored, excellent flavor.

MASTODON—The New Everbearing Strawberry

CURRANTS

Price of All Varieties of Currant Bushes

Extra Size, 2 Year, Strong Bushes—40c each; 10 for \$3.50;
100 for \$25.00.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st. 5 per cent discount on or before April 15th. 3 per cent discount after April 15th.

PARCEL POST—Currants can be sent by parcel post, postage prepaid, for 5c per bush extra.

CHERRY—Fruit averages large; color fine, bright red; berry thin skinned, juicy and fine flavored. Very productive.

DIPLOMA—Large, solid and of good quality, very attractive appearance, both clusters and berries being very large. Vigorous grower and the most productive red currant.

PERFECTION—In color it is a beautiful bright red, a size larger than the Fay; clusters average longer and the size of berries is maintained to the end of the bunch.

RED CROSS—A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. It is exceedingly productive, and the currants are of large size. Further than this, the fruit is far sweeter than ordinary currants.

WHITE GRAPE—Berries large to very large, averaging large; of very attractive color, mild flavor and good quality.

WILDER—Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild sub-acid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productiveness, and high quality we recommend this as one of the best red currants.

We Have Learned That the Best Stock on Earth Can be Dug,

packed, and shipped so carelessly that their first year's growth will be slight, if they don't disappoint you entirely. So we have organized for our customers' benefit what we call "Maloney Personal Service." The budding, cultivating, digging, hauling, sorting, packing and shipping of every one of our trees is overseen by our Mr. A. E. Maloney, assisted by our experienced men. It costs only a little more to do a thing right, and the results are more satisfactory.

MALONEY'S. OUR PRICES INCLUDE FREE DELIVERY.

Rhubarb

CHAMPAGNE RHUBARB (New)—Excels all in size, flavor and delicate tenderness of its crimson stalks. Strong, 2 year roots, 20c each; 10 for \$1.75; 50 for \$5.00.

PARCEL POST—Rhubarb can be sent parcel post, postpaid, for 3c per bush extra.

Asparagus

PRICE—2 Year, Strong Plants, 25 for 75c; 100 for \$2.00; 1000 for \$15.00.

PARCEL POST—Asparagus can be sent parcel post, postpaid, for 1/2c per bush extra.

PALMETTO—A very early variety, even, regular size and of excellent quality.

CONOVER'S COLOSSAL—Very large, makes rapid growth; planted mostly by market gardeners; very productive.

WASHINGTON—A new rust resistant variety. Stalks are large, dark green, with a heavy purple overtone.

Sage

HOLT'S MAMMOTH—Plants of strong growth. Price of strong, 2 year roots, 35c each; 10 for \$2.75.

Sage can be sent Parcel Post, postpaid, for 3c per root extra.

Horse Radish

Hardy roots. Plant in deep, rich soil. 10 for 40c; 100 for \$3.00.

Horse Radish can be sent Parcel Post, postpaid, for 1/2c per root extra.

RHUBARB

ASPARAGUS

RASPBERRIES

CUTHBERT

Red Raspberries

CUTHBERT—This is a valuable variety, well tested throughout the country. Cuthbert is a good vigorous grower and possesses vitality necessary for a popular variety. It yields bountifully of large and beautiful bright red berries, which are easily picked and always command good prices. No fruit grower can afford to omit planting Cuthbert, and surely no person who has a garden should attempt to get along without red raspberries.

LOUDON — Very hardy, heavy yielder, bears best on strong, clayey loam, but succeeds well on sand.

ST. REGIS (Everbearing)—This is a valuable addition to the Red Raspberry list. Plants that are set early in the spring will give a small crop of fruit the fall following. In size and quality is has no equal. About the middle of June it commences to set fruit on the young canes and bears continuously from then until frost. The berries are large, beautiful and attractive.

LATHAM (Red)—A new variety of great promise. Is being tested on the grounds of the New York Agricultural Station at Geneva, N. Y., and is very highly recommended by them. Prices, strong bushes of Latham, 25 for \$2.50; 200 for \$12.00; 500 for \$25.00.

PLUM FARMER RASPBERRY

Price of No. 1 Strong Best Selected Red and Black Raspberries

25 for \$1.25; 100 for \$4.00; 500 for \$17.50; 1000 for \$30.00

PARCEL POST—Raspberries can be sent by parcel post, postage prepaid, for two cents per bush extra.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st. 5 per cent discount on or before April 15th. 3 per cent discount after April 15th.

Black Raspberries

CUMBERLAND NEW BLACK—This new berry combines the equally valuable characteristics of great firmness, splendid quality and wonderful productiveness. Fruit firm. Mid-season.

KANSAS BLACK—This variety is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early.

PLUM FARMER BLACK—This very large and productive black raspberry has been thoroughly tested. It is a great favorite for market or home use. It is covered with a grayish bloom, like the bloom on a grape, which makes it very attractive in appearance. It ripens very early and quickly. The fruit is enormously large.

Purple Raspberries

25 for \$1.75; 100 for \$5.00; 500 for \$20.00; 1000 for \$35.00

COLUMBIAN PURPLE—A strong grower, unexcelled for productiveness and desirable for canning. Fruit very large, purplish color, rather soft; rich, sprightly flavor.

MALONEY'S 45TH YEAR

For more than forty-five years we have been helping people save money by giving them the best of Nursery Stock at low prices.

MALONEY BROS. NURSERY CO., INC.

BLACKBERRIES

Price of No. 1, Strong Plants, Best Selected Varieties
25 for \$1.75; 100 for \$5.50; 500 for \$22.50; 1000 for \$40.00

BLOWERS—Claimed to be the hardiest, most productive, of finest quality and to bring the highest market price.

ELDORADO—The vines are very hardy and vigorous, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

MERSEREAU—Remarkably strong grower, upright, producing stout, stocky canes. An enormous producer of extra size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

SNYDER—Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. Ripens early.

Dewberry

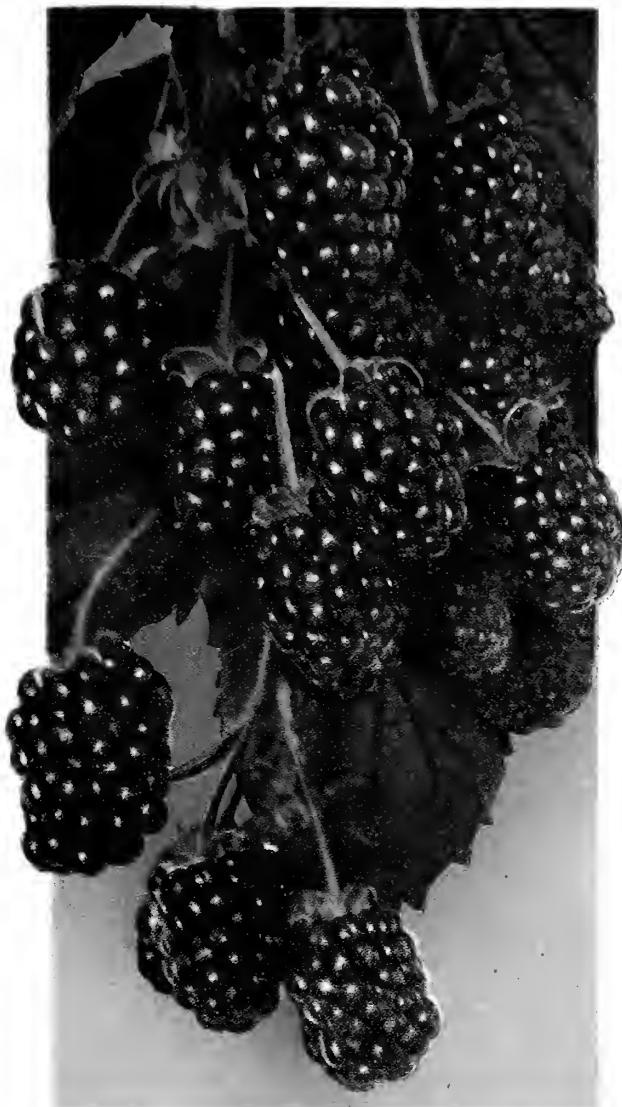

LUCRETIA—It equals any of the tall growing sorts. Perfectly hardy, healthy and remarkably productive, with large, showy flowers. The fruit, which ripens early, is often 1½ inches long by 1 inch in diameter; soft, sweet and luscious throughout. By mail, 12 for \$1.00; 100 for \$4.50.

PLANT BERRIES—IF ONLY A FEW

You have perhaps little idea how visitors exclaim in delight over berries growing before their very eyes. And unless you have tested berries, fresh from the vines, you have a new treat coming in delicious flavor.

PARCEL POST: Berries can be sent by parcel post, postage prepaid, for two cents per bush extra.

We Prepay Transportation. See Page 15.

BLOWERS—Blackberry

ST. REGIS RASPBERRY (Everbearing)

DANSVILLE, N. Y.

Clinton, N. Y.,
May 24, 1928.

Gentlemen:

I was perfectly amazed at the size of the shrubs and plants that reached me in fine condition last Monday. They would have cost twice as much at any other nursery that I know about.

Your wonderful offer made it possible to get things I have long wanted but felt unable to buy.

Next fall, or spring, I hope to send you another order.

With great appreciation of your generous plants and prices, I remain,

Yours truly,
(Miss) ELIZABETH A. POST

Maloney Bros.

Boston, N. Y.

Dear Sirs:—

Am writing to tell you my order of trees and berries reached me all in fine condition and well pleased with both; and thank you for filling my order so promptly, I never expected to get them so soon.

Yours truly,
HUBERT KOELMEL

MALONEY TREES DUG BY STEAM POWER HAVE LONG, FIBROUS ROOTS

MALONEY'S APPLES INSPECTED

For Trueness To Name

STATEMENT OF INSPECTION FOR
TRUENESS-TO-NAME. 1928

Amherst, Mass., Aug. 20, 1928

To whom it may concern:

I have examined for trueness-to-name the salable apple stock now growing in the nurseries of Maloney Bros. Nursery Co., Inc., Dansville, N. Y., and I now declare that to the best of my knowledge and belief these trees are true to variety name as they stand in the nursery row.

(Signed)

A. P. FRENCH

SO many of our customers disapproved of putting a wire through the tree to fasten the certification seal on, because of the injury it does to the tree, that we made arrangements with Mr. A. P. French of the Massachusetts Agricultural College to inspect our Apple trees, both one and two-year old, for trueness to name.

This gives you the same identical protection without causing damage to the trees. Fruit growers throughout the United States endorse this method.

Prices of All Varieties Upland Grown Standard Apple Trees Inspected

BUDED ON WHOLE BRANCHED ROOT FRENCH SEEDLINGS AND DUG BY STEAM POWER

		Height	Diameter		Each	Ten	Hundred

Apple Trees should be planted on elevated ground rather than in a hollow or low ground, and they require fertile soil, such as is needed for corn and wheat.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st.

5 per cent discount on or before April 15th. 3 per cent discount after April 15th.

Summer Varieties

EARLY HARVEST—Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. August.

RED ASTRACHAN—Tree hardy and regular bearer, a very vigorous grower; fruit large, roundish, nearly covered with deep crimson, overspread with a thick bloom; juicy, rich and beautiful. This fruit commands the best price of the summer varieties. July and August.

SWEET BOUGH—Large, pale yellow; sweet, tender and juicy. Compact grower and abundant bearer. August.

WILLIAMS EARLY RED—Medium sized; dark red, sometimes yellow splashed; flesh is crisp, tender, juicy and sub-acid. Ready for market when people are hungry for new apples; brings top price. August.

YELLOW TRANSPARENT—Medium size, roundish, oblate, slightly conical; skin pale yellow when matured; flesh tender, juicy, sprightly, sub-acid; good. August.

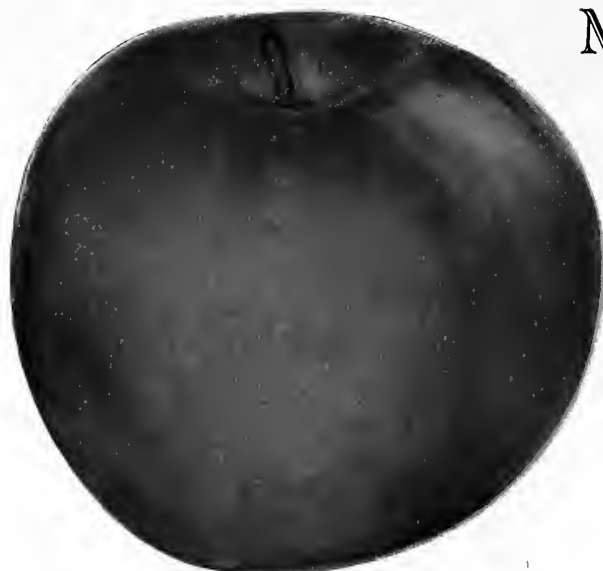

MALONEY'S TREES—20 acre apple orchard composed of equal parts Stayman, Rome, McIntosh and Baldwin planted as one year whips in the spring of 1917. Planting arranged on a corner of 20 foot square with fillers to be removed when necessary. Fillers removed in the winter of 1928-29, leaving permanent trees on the corner of 40 foot square with semi-permanents in the center of the square, which probably will remain until the winter of 1933. Stayman, Rome and McIntosh have been in heavy bearing since the 1926 crop. Baldwins have been in light bearing since 1926 crop.

BALDWIN

ORCHARD PLANTER'S ENDORSEMENT

Gentlemen:

Milton, Vt., April 16, 1928

Your attractive offer interested me very much. I am enclosing my check for Rose Collection No. 86 and Perennial Collection No. 85 which I wish shipped to me at the above address.

Our apple orchard of 2,000 trees, most of which were bought from you, is doing very beautifully and the fruit, which has been shipped to thirty-seven states of the Union, has been enthusiastically praised for its delicious flavor and texture. We feel that much of the credit is due you for producing such high quality trees.

We have been very much pleased with the stock we have bought from you and are looking forward to receiving the rose bushes and perennials.

Sincerely yours,

R. I. MOODY

DELICIOUS

DUCHESS OF OLDENBURG—Medium size; red striped; flesh white, juicy and excellent flavor. Trees are natural dwarf growers, make fine fillers; require small root and branch space. Crops nearly always large. Tree among the hardiest and one of the few that will stand cold locations. August and September.

FALL PIPPIN—Very large, yellow, tender, juicy and rich. Fine in all localities; tree vigorous. September and October.

GRAVENSTEIN—An attractive and excellent quality apple. Fruit large and uniform in size, skin thin, tender, greenish yellow, overlaid with dark red. September to November.

MAIDEN'S BLUSH—Large, flat; pale yellow, with red cheek; beautiful; tender and pleasant. September and October.

POUND SWEET—A very large, round, yellow russet apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October to November.

Winter Varieties

BALDWIN—Due to its dependability, desirable season, good size, attractive color and good quality, Baldwin is the leading commercial variety for Eastern and Middle states. Every orchard in the Baldwin belt should have at least a few trees of this grand "old reliable" variety. Large, strong, vigorous trees, producing an abundance of large to very large apples of a bright red color, with yellowish, crisp, tender, very juicy flesh. Agreeably sub-acid in flavor. Very good in quality. November to April.

BEN DAVIS—Fruit is medium to large. Bright red or red striped, with clear yellow. It succeeds wherever apples are grown. January to June.

CORTLAND—(New Variety Developed by New York State Experimental Station.) A fine apple resulting from the cross pollination of McIntosh and Ben Davis. Inheriting only the good qualities of each, the new apple has found additional good qualities of its own which are rapidly making it a strong competitor of the Baldwin in popularity. The Cortland is a beautiful red apple, larger than the McIntosh, of better quality and matures a month later. Keeps late in winter and can be handled and shipped like the hardiest of other market varieties. November to February.

DELICIOUS—No variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red. Flesh fine grained, crisp and melting, juicy with a delightful aroma, of very highest quality. A splendid keeper and shipper. Tree one of the hardiest. November to April.

Maloney's Prized Standard Apple Collection No. 24

1 Baldwin	1 Delicious

MALONEY BROS. NURSERY CO., INC.

WINTER VARIETIES—Cont'd

FAMEUSE—Medium size; deep crimson; flesh snowy white, melting and delicious. October to December.

GANO—Fruit of deep, dark red that brings a ready sale in market. December to March.

GOLDEN RUSSET—Medium size, clear golden russet, with slight flush; juicy, high flavored. November to April.

GRIMES GOLDEN—Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. December to April.

HENDRICK SWEET—An attractive red winter apple. Excellent in quality for dessert or for other culinary uses. November to April.

HUBBARDSTON NONESUCH—Large, striped yellow and red; flesh juicy and tender; bears well every year; comes into bearing early. November to March.

JONATHAN—A beautiful red apple, highly flavored. Tree long lived, productive, and an early bearer. November to January.

KING—Flesh yellow, crisp, tender, juicy and sub-acid. Skin fine yellow, mottled with orange red, splashed with carmine. October to January.

MAMMOTH BLACK TWIG—Dark red. December to April.

McINTOSH RED—An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer—comes into fruiting early, yielding large crops. Do not overlook McIntosh when selecting varieties for commercial and orchard planting. It has no superior as an early winter apple. October to February.

NEWTOWN PIPPIN—Medium to large; yellow, delicious flavor, a long keeper. November to May.

NORTHWESTERN GREENING—A round, large, attractive, greenish yellow apple; flesh fine grained, juicy, firm, good quality. October to April.

NORTHERN SPY—A hardy, large, red, winter apple. Flesh juicy, rich, crisp, tender, aromatic, of good flavor. Tree very healthy, strong grower, rugged. Blossoms very late, escaping frosts. December to March.

OPALESCENT—Fruit large; pale yellow, nearly and frequently covered with dark red; mildly sub-acid. November to February.

RED SPY—A solid, bright red Spy, without stripes or splashes. It has been recommended to fruit growers by the N. Y. State Fruit Testing Co-operative Association at Geneva as a new variety worthy of trial. December to March.

RHODE ISLAND GREENING—Large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, slightly sub-acid, very good. Skin grass green to yellow, sometimes with brownish-red blush. Tree large, strong, vigorous, wide spreading. Keeps until April. Ripens in December.

ROME BEAUTY—Large, round, mottled and striped in different shades of red; flavor and quality way above the average; appearance and size are its valuable points. December to March.

SMOKEHOUSE—Color yellow or greenish, mottled with rather dark red, sometimes deepening to a solid bright red. October to March.

STARK—Large, striped, mild, sub-acid, good. Valuable as a keeper. January to May.

STAYMAN'S WINESAP—Medium to large, attractive; green and yellow, almost hidden by dark red stripes; flesh yellow; bears young, often producing a barrel to a tree when five years old. Bears every year. December to April.

TOLMAN SWEET—Medium size; color, light yellow; flesh white, firm, rich and very sweet. November to April.

TWENTY OUNCE—Very large, yellow, striped red, fine quality apple; good keeper. October to January.

CORTLAND

WAGENER—Fruit large, tender, firm and very juicy. Bright pinkish red, striped with carmine. Tree vigorous and hardy. December to May.

WEALTHY—Fruit large, roundish, skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; particularly valuable for cold climates. Planted as a filler in many sections. October to January.

WINTER BANANA—Fruit large size, perfect in form. golden yellow, and beautifully shaded and marbled with bright crimson red; flesh lemon-yellow, fine grained. November to January.

WOLF RIVER—Fruit large, flattened, conical, highly colored. September to December.

YORK IMPERIAL—The fruit is of medium size, skin yellow and almost wholly covered with two shades of red. November to February.

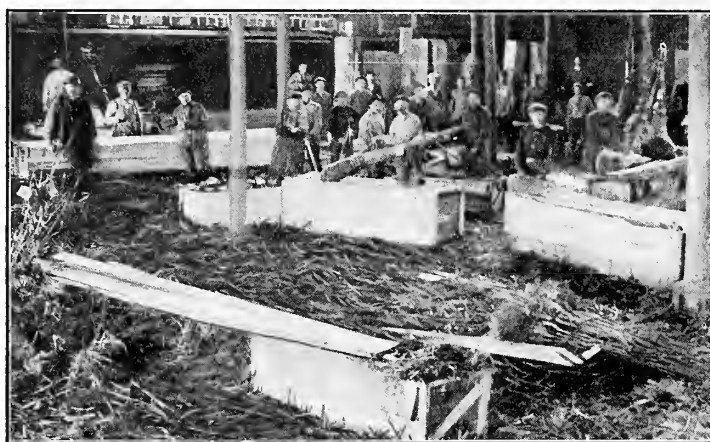

Best Hardy Crab Apples

HYSLOP CRAB—Fruit deep crimson; October.

TRANSCENDENT CRAB—Fruit bright yellow, striped with red. September to October.

McINTOSH

Dwarf Fruit Trees

DWARF fruit trees are growing in popularity each succeeding year. They bear larger, better fruit, and several years earlier than standard trees. There are even more important points. The low, broad heads are within reach so that the fruit can be easily picked. You can plant dwarf trees in your garden ten feet apart and still grow strawberries and most vegetables. With dwarfs some varieties will bear the first year, all will the second, and bear a full crop the fourth year.

Prices of All Varieties of Dwarf Apple and Pear Trees

		Height	Diameter		Each	Ten	Hundred
Largest Size	2 Year	4 to 5 Feet	$\frac{5}{8}$ and up	XXX	\$0.85	\$7.50	\$50.00
Medium Size	2 Year	3 to 4 Feet	$\frac{1}{2}$ to $\frac{5}{8}$	XX	.75	6.50	40.00

RATES—Less than ten at each rate. Ten to fifty at ten rate. Fifty or more at hundred rate.

PARCEL POST—2-3 ft. Dwarf Trees can be sent by parcel post, postage prepaid, for 60c each; 10 for \$5.00.

Maloney prices are low, based on first quality selected stock. We pay transportation. See page 15 for states

MALONEY'S EARLY-TO-BEAR FRUIT TREES

These trees have been especially selected, scientifically pruned and will come into fruiting early.

A great many people make the very serious mistake of selecting small trees for their garden planting, when a few extra cents invested now will purchase trees which will bear earlier and yield more fruit, finer fruit in the years to come.

QUINCES

CHAMPION—A large, late ripening sort. Late October.

MEECH'S PROLIFIC—Fruit is large, orange yellow, of great beauty and delightful fragrance. October.

ORANGE—Buds secured from Fred Grover's orchard, Pultneyville, N. Y. Fruit large, golden yellow, of fine quality. It rarely fails to produce a crop. Ripens in October.

APRICOTS

On Plum Roots

Beautiful and delicious fruit. In quality and appearance is between the plum and peach, combining qualities of both. Ripening early, together with its delightful flavor, makes it one of the most valuable fruits for the garden.

ROYAL—Hardy and abundant bearer; yellow, with red cheek; large; slightly acid, rich and luscious. July.

MOORPARK—One of the largest. Orange red cheek; firm, juicy, with a rich flavor; productive. August.

MALONEY'S PLUMS

Prices of All Varieties Upland Grown Plum Trees

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plant 15 to 18 feet apart each way.

European Varieties

ARCHDUKE—Very large, prolific; dark purple; a very good orchard variety. September.

BRADSHAW—Very large, early, dark violet red, juicy and good. Very productive; valuable for market. Tree very hardy and vigorous. Middle of August.

FELLEMBERG PRUNE—A fine prune, oval; purple; flesh juicy and delicious. Early September.

GERMAN PRUNE—Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. Sells for higher prices in market on account of high quality. A leading favorite. There is no easier grown fruit that gives greater or more certain profit than the German Prune. Owing to its keeping qualities it is highly prized for shipping. September.

GRAND DUKE—One of the best late plums for market, as large as Bradshaw, of same color. Last of September.

IMPERIAL GAGE—Rather large, oval, greenish. Flesh juicy, rich and delicious. Middle of August.

LOMBARD—Handsome reddish plum, the flesh yellow, juicy and pleasant. An excellent variety and can be relied on for a crop when other varieties fail. August.

LOMBARD PLUM

MALONEY PRUNE—Color dark blue. Flesh yellow and delicious. Splendid grower, extremely hardy. Bears early. September until freezing weather.

MOORE'S ARCTIC—Fruit grown in clusters. Color dark blue or nearly black when fully ripe. September.

NIAGARA—Red, large size, good quality. Middle of Aug.

SHIPPER'S PRIDE—Large, nearly round; dark purple; quite juicy, sweet. September.

SHROPSHIRE DAMSON—Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

YELLOW EGG—Golden yellow, covered with thick bloom. Flesh golden yellow. Rather juicy. Tree large, very productive. September.

YORK STATE PRUNE—Large size, color dark blue, covered with purple. Delicious. One of the largest, best in quality, and most productive of all prunes. Tree is a vigorous grower and hardy. Best for commercial purposes. Last of August.

Japanese Varieties

ABUNDANCE—Tree a rapid grower, healthy, comes into bearing remarkably young, yields abundantly. Fruit of medium size, amber, with markings of red; juicy, sweet, of good quality. August.

BURBANK—Is decidedly the best of Japan varieties, unsurpassed for beauty and productiveness, as well as a very hardy tree. Succeeds over a wide range of country, will stand the most severe winters. Fruit large, oval, with reddish purple skin; flesh yellow, juicy, and good. August.

RED JUNE—The great early market plum. Medium to large; deep vermilion red, with beautiful bloom; very showy; flesh light lemon-low, firm, slightly sub-acid, delightful. Early August.

WHERE TO PLANT CHERRIES—On any kind of land, other than wet. They will thrive beautifully on a sandy or gravelly soil.

Sweet Cherries

BING—This valuable black cherry succeeds everywhere. Flesh very solid, flavor of the highest quality, a fine shipping and market variety. July.

BLACK TARTARIAN—This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

GOVERNOR WOOD—One of the best cherries; very large, light yellow, marbled with red; juicy, rich, and delicious; tree healthy and a great bearer; hangs well on the trees; vigorous. Last of June.

LAMBERT—One of the largest cherries; dark purple red, turning almost jet black when ripe. Flesh firm, rich, juicy, tree rugged, strong grower and an enormous bearer. Late July.

NAPOLEON—Tree medium size, erect, with roundish head, fruit borne generally in twos, very large, oblong cordate, light lemon yellow with red cheeks. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Late June.

BLACK TARTARIAN CHERRY

SCHMIDT'S BIGARREAU—Fruit very large size, deep mahogany color. Flesh is dark, tender, very juicy, fine, rich flavor. Fruit grows in clusters. An excellent shipper and brings good money on the market. July.

WINDSOR—A splendid, large, liver-colored cherry; hangs a long time and rots but little. Flesh remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

YELLOW SPANISH—Large, pale yellow, with red cheek; firm, juicy and excellent; one of the best light colored cherries; vigorous and productive. Last of June.

Sour Cherries

DYEHOUSE—A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies, and especially for canning it has no superior among cherries. Early June.

EARLY RICHMOND—This hardy cherry fruits on young trees soon after planting. Yields marvelous crops. Tree slender in growth, with a roundish, spreading head. Fruit is medium size, round and dark red. Flesh tender, juicy, and sub-acid. Ripens in June.

ENGLISH MORELLO—Easily grown, generally producing a heavy crop. Fruit dark red, quality good; rich, acid flavor; late. Hardy for extremely cold latitudes. August.

MONTMORENCY—The best sour cherry. There is a greater demand on the market for this cherry than for any other. The trees are the cleanest and best growers and are less subject to disease, less affected by wet weather, and are the best bearers of all sour cherries. Montmorency is a good shipper, very attractive looking and always brings good prices. The canning factories favor it. Fruit is good sized, fine flavored and bright, clear red. Flesh is of fine quality and sub-acid. Fruit ripens ten days after Early Richmond.

PARCEL POST—First-class, 3 foot Pear Trees sent by parcel post, postage prepaid, for 50c each; 10 for \$4.50.

SOIL—Pears will succeed in a clay soil, although any good heavy soil will do, but avoid planting on sandy loam.

DISCOUNT—10 per cent discount on all cash orders mailed on or before April 1st.
5 per cent discount on or before April 15th. 3 per cent discount after April 15th.

BARTLETT—Large, coloring when fully ripe to waxen yellow, with a red blush; juicy, melting, highly flavored, a most delicious fruit; tree bears early and abundantly. We have sold many large orchards of this variety. The fruit ripens just at a time when there is but little competition; in fact, there is no pear ripening at the same time that is in the Bartlett class. It might surprise you to know that there are more of this variety planted than all other kinds of pears combined. That speaks for itself, does it not? You will never make a mistake when planting Bartlett. September.

BEURRE D'ANJOU—The pears are of large size, green in color, but often yellowing when thoroughly ripe. For late fall and very early winter use, we have no better variety. It keeps until January with special care. October to November.

BEURRE BOSCH—A large and beautiful russet pear, very distinct, with a long neck. Without a doubt the highest quality and best flavored of all. Should be in every home garden. Flesh fine grained, juicy and melting, very delicious and highly flavored; bears well. October.

CLAPP'S FAVORITE—A superb, large, long, yellow pear, richly flushed with russet-red next the sun. The flesh is fine grained, juicy, melting and buttery. Earlier than Bartlett. A fine grower and extremely productive. Early August.

DUCHESSE D'ANGOULEME—A most dependable cropper. Fruit large, frequently weighing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all around profitable market pear. October and November.

FLEMISH BEAUTY—Considered one of the hardiest and best for the Northwest, in which location it bears great crops of perfect fruit. September to October.

KIEFFER—Large, rich golden yellow, sometimes tinted red on the sun exposed side; fair quality. To properly ripen should remain on the trees until leaves begin to fall, then gather carefully and allow to ripen in a cool, dark cellar. One of the most resistant to blight.

KOONCE—Tree vigorous, upright grower; fruit medium size; skin greenish-yellow; flesh white, juicy. August.

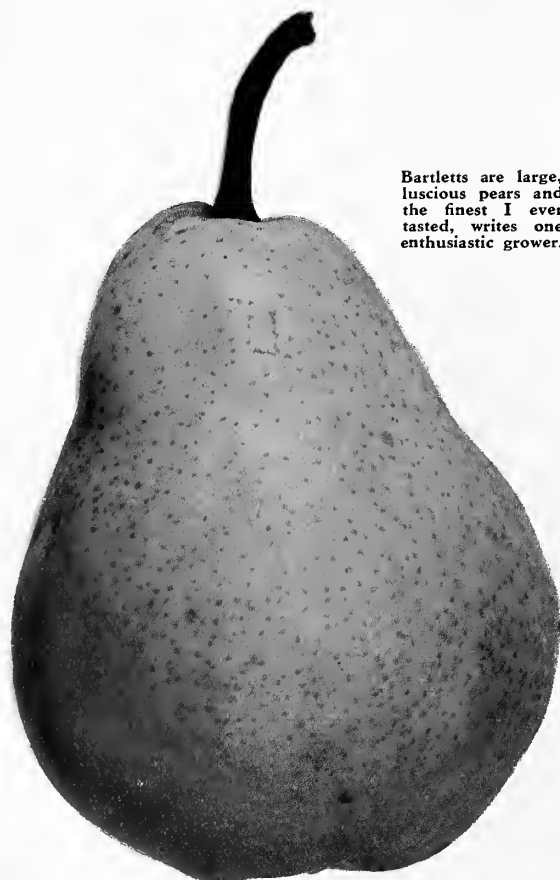

LAWRENCE—Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter pear. The tree is hardy, healthy and productive, bearing large crops annually. November and December.

SECKEL—A beautiful and delicious little pear that is the standard of excellence in its class. One of the richest and highest flavored pears known. Owing to its extreme hardiness it can be planted in cold climates with the assurance of best results. September and October.

SHELDON—A large, round, russet and red pear of very fine quality, melting, rich and delicious. October.

WILDER—A very early pear of excellent quality. Medium to large size, irregular, bell-shaped; pale yellow, with shadings of russet-red. Early August.

WINTER NELIS—The finest winter variety produced. Tree very hardy and a heavy cropper. Fruit of medium size and roundish, yellow in color, covered with russet. The flesh is yellow, sweet and fine grained. Unexcelled for quality when fully ripe. December.

Bartletts are large, luscious pears and the finest I ever tasted, writes one enthusiastic grower.

SOIL—Peach trees will succeed on any kind of rich soil.

ALEXANDER—Medium, greenish white, nearly covered with rich red, melting, juicy, sweet. July. Free.

BELLE OF GEORGIA—Very large, white, with red cheek. Flesh is white, firm and of fine flavor. Tree rapid grower and productive. Free. August.

CARMAN—Fruit large, color creamy white or pale yellow, with deep blush; flesh tender, fine flavor; very hardy and productive. Early August. Free.

CHAIR'S CHOICE—Large, yellow, free, flesh very firm, ripens after Smock; great bearer. October. Free.

CHAMPION—Fruit large, flavor delicious, skin creamy white, with red cheek; valuable for commercial orchards, extremely hardy. Late August. Free.

CRAWFORD'S LATE—Fruit large; skin yellow, or greenish yellow, with dull red cheek; flesh yellow; tree vigorous, moderately productive. Late September. Free.

CRAWFORD'S EARLY—A magnificent large yellow peach, good quality. Tree very productive. Its size, beauty and productiveness make it one of the most popular sorts. Early September. Free.

CROSBY—Medium size; bright orange yellow streaked with carmine. First of September. Free.

EARLY ELBERTA—Differs from the Elberta in ripening, being ten days earlier, rounder and of better quality. Early September. Free.

ECLIPSE—Dark red, yellow-fleshed. Fruit oval, flesh fine grained, excellent shipper. Recommended as a variety to replace Hiley.

ELBERTA—The leader of all peaches and the greatest commercial variety on the market; 50 per cent of the peaches planted are Elberta. In all probability no peach will succeed over so wide a range of territory as this kind. It will thrive where any peach can be grown. A beautiful peach of good quality, not only the best orchard variety, but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow, with red cheek, juicy and high flavor; flesh yellow. Season medium early, following quick upon Early Crawford. Early September. Free.

FITZGERALD—One of the hardiest in bloom and tree; very prolific, large size. First of September. Free.

GREENSBORO—Color greenish-white, shaded and splashed with dark red; very hardy. Owing to extreme hardness of both tree and bud we recommend it for sections where other varieties do not succeed. Late July. Free.

HEATH CLING—Fruit very large. Skin creamy white, having a faint tinge of red on sunny side. Is unequaled by any other clingstone. Middle of September.

J. H. HALE—Fruit large and highly colored. It averages one-third to one-half larger than Elberta; ripens about five days earlier and is much superior in flavor. Color, a deep golden yellow, with carmine blush. An excellent shipper and should be in every garden or orchard. Late August. Free.

DANVILLE, N. Y.

ELBERTA

Desirable Peach Tree Collection No. 31
